REVISED COMPENSATION SYSTEM FOR THE BOARD OF MANAGEMENT. OVERVIEW COMPENSATION STRUCTURE (1).

Base Salary

Adjustment of the base salary (first time since 2012).

Variable Compensation

(1) Adjustments to the bonus

Restructuring of the earnings- and the performance-related bonus components (previously 50%/50%; now: 30%/70% based on 100%-target achievement): Reduction of target compensation amount and adjusted relative weighting of components.

Components capped at 180% (previously 200%) of the target amount.

Earnings-related component: More ambitious targets and elimination of the dividend as a calculation factor.

Performance-related component: Primarily qualitative, non-financial criteria with a focus on strategic challenges, also including relative parameters (e.g. the Group's market position compared to its competitors).

(2) Introduction of a Performance Cash Plan (PCP)

Future-oriented cash component with pay-out after a three-year evaluation period.

Parameters: (a) Multi-year earnings factor (average figures of Group net profit and post-tax return on sales).
(b) Multi-year performance factor.

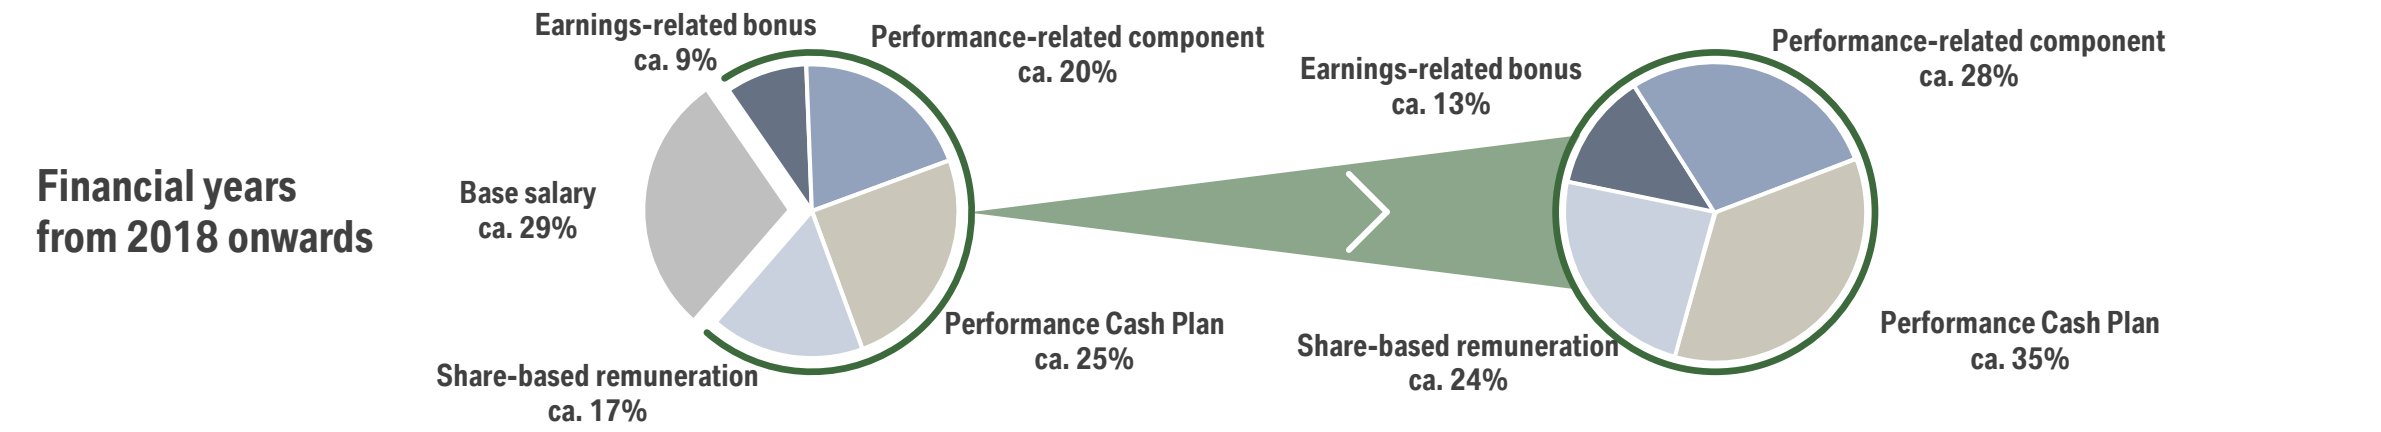

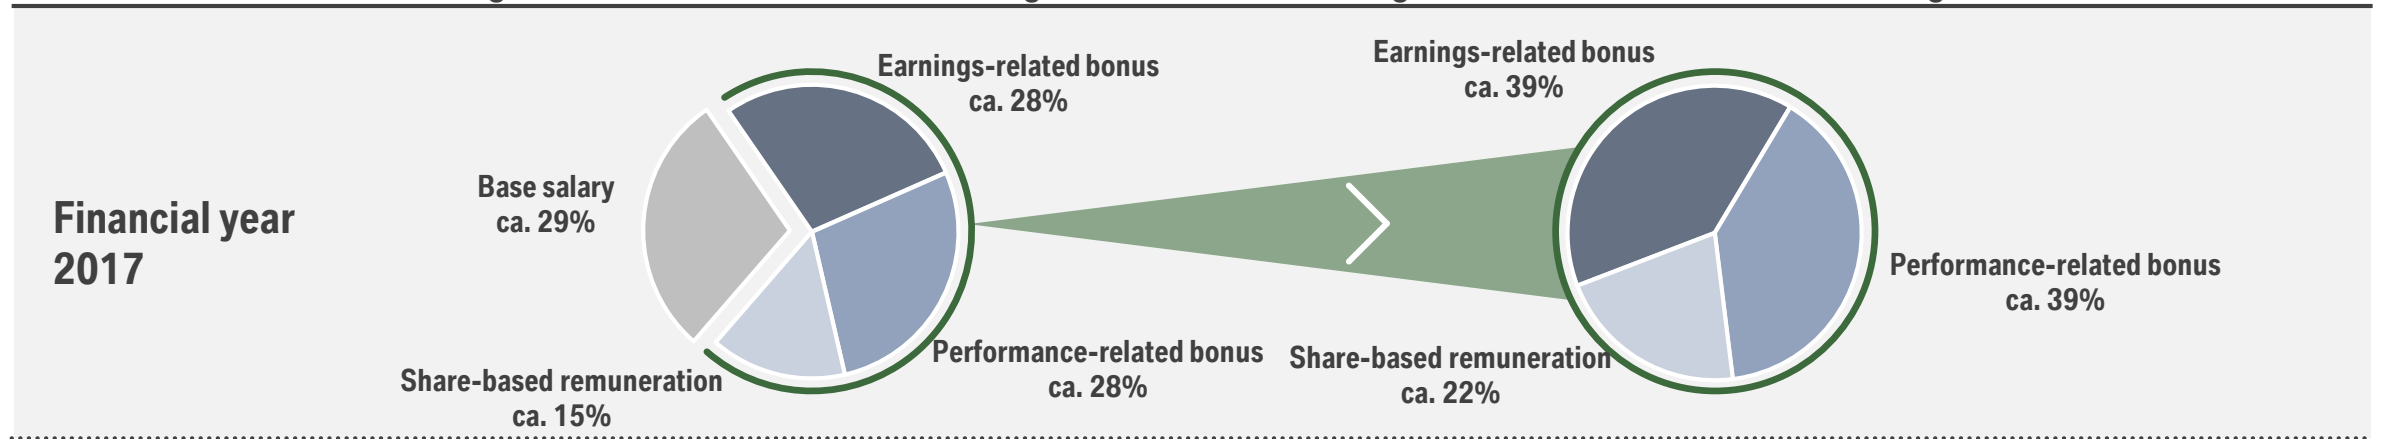

(3) Continuation of the share-based remuneration programme
