

BMW X2: Suitable seats

General

Information about which child restraint systems can be used on the seats in question if the child restraint systems are attached with a seat belt in accordance with the ECE-R 16 standard.

Left-hand drive vehicle: Usability of child restraint systems on the car seats

Seat position number	Seat position				
	1	3 – a)	4 – b)	5 – c, d)	6 – b)
Seating position suitable for universal belted – yes/no	no	yes	yes	yes	yes
i-Size seating position – yes/no	no	no	yes	no	yes
Seating position suitable for lateral fixture – L1/L2	no	no	yes	no	yes
Largest suitable rearward facing fixture – R1/R2/R3	no	no	R3	no	R3
Largest suitable forward facing fixture – F1/F2X/F2/F3	no	no	F3	no	F3

a) Adapt the front/back position of the front passenger seat and, if necessary, move it to the highest position to achieve the best possible routing of the belt.

b) When using child seats on the rear seats, adapt the front/back position of the front seat if necessary, and also adjust the head restraint of the rear seat, or remove it.

c) Only occupy the outer seats if the belt buckles are easily accessible.

d) The seat is not suitable for child seats with a support stand.

Non i-size seating position compatible with a support leg : not applicable.

Seating position equipped with lower ISOFIX anchorages but without Top Tether : not applicable.

Adult safety belt buckles are located laterally in between both ISOFIX lower anchorages : not applicable.
