Bayerische Motoren Werke Aktiengesellschaft, München.
Additional Information on the virtual Annual General Meeting 2020.

Due to the COVID 19 pandemic, BMW AG will hold the Annual General Meeting 2020 as a virtual General Meeting to protect shareholders, employees, service providers and other visitors.

We have summarised what this means in concrete terms and which consequences it will have for shareholders in the following questions and answers.

1. **What is a virtual Annual General Meeting?**

   The term "virtual Annual General Meeting" currently refers to an Annual General Meeting without the physical presence of shareholders and their proxies at the venue. This possibility was only recently introduced by the legislator. While the right of physical participation for shareholders is excluded in the virtual meeting, the Online-Services for following the meeting will be enhanced.

   Until now, Annual General Meetings in Germany mandatorily had to be held as meetings with the physical presence of shareholders. This applied even when Online-Services were offered during the meeting. However in times of the current COVID 19 pandemic, holding such a meeting with physical presence would entail infection risks, which must be avoided. Furthermore, official assembly bans are impending.

   In order to make it possible to hold an Annual General Meeting nevertheless, the legislator has created a short-term possibility with the Act on Measures in Corporate, Cooperative, Association, Foundation and Home Ownership Law to Combat the Effects of the COVID 19 Pandemic, to hold this year’s General Meeting virtually without the presence of shareholders.

2. **How can the shareholders participate in the virtual Annual General Meeting?**

   Shareholders can follow the entire Annual General Meeting live on the Internet in video and audio. The speeches of the Chairman of the Meeting and the Chairman of the Board of Management are webcast publicly, the subsequent part of the Annual General Meeting is reserved for registered shareholders.

   Shareholders may exercise their voting rights by making use of postal vote (if necessary via a proxy) or by authorising the Company’s voting representatives to vote in accordance with the instructions given to them. These options are already available in the run-up to the Annual General Meeting and also online during the Annual General Meeting until the voting procedure commences. Thus, you can also include the explanations of the Board of Management and the answers to questions in your vote.

   Prior to the Annual General Meeting, registered shareholders also have the option of submitting questions to the Board of Management via the Online-Service by 12:00 noon on 12 May 2020 at the latest. The Board of Management will answer these questions at its dutiful and free discretion in the virtual Annual General Meeting.

   The Online-Service of BMW AG for the virtual Annual General Meeting on 14 May 2020 will be available to shareholders from 23 April 2020 at www.bmwgroup.com/agm-service.
3. **May I as a shareholder also attend the Annual General Meeting at the venue?**

   No. Unfortunately, it is not possible to attend the Annual General Meeting at the venue this year. Instead, we ask you to use our Online-Service at [www.bmwgroup.com/agm-service](http://www.bmwgroup.com/agm-service).

4. **What do I have to do in order to use the Online-Service for the virtual Annual General Meeting?**

   a) **Registration for the Annual General Meeting**

   Prerequisite for using the Online-Service at [www.bmwgroup.com/agm-service](http://www.bmwgroup.com/agm-service) is that you register in advance for the Annual General Meeting.

   You will usually receive the registration documents together with the information on the Notice of the Annual General Meeting from your custodian bank. Your custodian bank is expected to send these documents towards the end of April. Unfortunately, we have no influence on the exact date.

   Please note that due to the current COVID 19 pandemic, there may be delays in postal dispatch. You can reduce such delays if you instruct your custodian bank to send the documents to you electronically.

   b) **Use of access data**

   If you have registered for the Annual General Meeting, you will receive a registration confirmation. Your access data for the Online-Service (top right) are printed on the registration confirmation.

   If you access the Online-Service at [www.bmwgroup.com/agm-service](http://www.bmwgroup.com/agm-service), you will be asked to enter these access data. Once you have entered them, you can use the Online-Service.

5. **Why does BMW not postpone the Annual General Meeting in order to hold it at a later stage?**

   This option has of course been assessed. However, we cannot currently foresee when it will be possible to hold an Annual General Meeting with shareholders present at the venue in the usual magnitude of 5,000 participants.

   At the same time, the resolutions of the Annual General Meeting are important for our company and for the shareholders. For example, the resolution on the appropriation of profits is the basis for the payment of the dividend in the proposed amount.

6. **Where can I find detailed information on my rights in connection with the Annual General Meeting?**

   You can find detailed information on your rights in connection with the Annual General Meeting in the documents "Notice of the Annual General Meeting 2020" and "Explanation of shareholders' rights". These documents are also available on this website at [www.bmwgroup.com/agm](http://www.bmwgroup.com/agm).
7. **Whom can I contact if I have further questions regarding organisational aspects of the Annual General Meeting?**

You may contact the following persons at Investor Relations of BMW Group:

Andreas Stöffler, Tel.: +49-89-382-17944
Alejandro Aguiar, Tel.: +49-89-382-25452
