*In connection with a review of its sales practices and related reporting practices, the BMW Group has examined prior-period vehicle delivery data and ascertained that certain vehicle deliveries were not reported in the correct periods. The BMW Group has revised its vehicle delivery data retrospectively for previous years. Further information on this matter is provided in the BMW Group Report 2020, pp.128. The BMW Group continues to develop policies and procedures relating to vehicle delivery data, whereby it is not always practicable to revise the data for prior periods. This applies in particular to minor revisions that would not have a material impact on the comparability of reporting periods.

THE PERFORMANCE PROGRAMME CONTRIBUTES SUBSTANTIALLY TO OUR EARNINGS AND FREE CASHFLOW.

**Improve Sales Performance**
Steering of sales activities even more granular and in real time – at the level of sales channel, markets and models.
Re-allocating volumes to markets with high contribution margins and reducing cost of retail.
Worldwide rollout of all performance levers on track.

**Optimise Product Offer and Complexity**
Reduction of drive train variants by up to 50% until 2025.
Customer centric offer structure: more transparency for customers, easier vehicle configuration and better equipped base vehicle.

**Decrease Proportional and Fixed Costs**
Continuation of our measures to optimise our personnel structures and reduce costs with long-term effect.
By 2025 reduction of production costs per vehicle by 25% (compared to 2019 level).

**Optimise Investment and Working Capital**
Optimisation of product planning at early stage for efficient plant integration and investment.
Increase share of modular systems with additional effects in purchasing through economies of scale.
Further optimisation of working capital (e.g. in finished goods).

Further development of the programme with additional content will continue to show its effects in 2022 and subsequent years.
OUTLOOK 2021.
