WE MAKE INDIVIDUAL MOBILITY MORE HUMAN, INTELLIGENT AND RESPONSIBLE – CREATING AN INSPIRING FUTURE FOR ALL OF US.
WE ARE THOUGHT LEADERS AND SET STANDARDS FOR TOMORROW'S INDIVIDUAL MOBILITY MERGING JOY AND RESPONSIBILITY.

Outstanding, thrilling, individual mobility products and services for customers worldwide.

Powerful innovations and passion to shape a holistically sustainable company.

Financial stability due to a strong balance sheet and attractive stakeholder returns.

IMPACT.
OUR PATH TO THE FUTURE.
WE USE OUR POWERFUL INNOVATIONS, OUR PASSION AND OUR FINANCIAL RESILIENCE TO SHAPE THE FUTURE OF SUSTAINABLE MOBILITY.

We make individual mobility more human, intelligent and responsible – creating an inspiring future for all of us.

We focus on our customers and meet their differing needs around the world.

We reconcile economy, ecology and society contributing to the sustainable development of our planet - on the way to full climate neutrality by 2050.

Our values are the basis for our daily work and we work hand in hand with all internal and external stakeholders.

We emphasize a superior profitability and strong shareholder returns while maintaining a financial resilience with industry-leading credit ratings.

We emphasize a superior profitability and strong shareholder returns while maintaining a financial resilience with industry-leading credit ratings.

Socially accountable.

Holistic.

Cost-effective.
NEUE KLASSE IS THE NEXT LEVEL MOBILITY IN 2025 WHICH DRIVES PROGRESS ON BOTH A PRODUCT AND A COMPANY LEVEL.

**ELECTRIC.** Taking efficiency of BEVs to a new dimension. Aim of matching range and margins with ICEs on a medium term.

**DIGITAL.** Completely novel and immersive user experience with a new quality of human-car-connection.

**CIRCULAR.** Further enhanced use of innovative materials and processes to reduce the carbon footprint.¹

---

Developing our flexible production network to a globally connected iFactory leveraging digitalization & virtual reality in all divisions.

From a collaborative organization to new working models and clustering of development, production & purchase expert teams.

¹In relation to raw materials, production, use phase and recyclability.
THE VISION NEUE KLASSE BUNDLES BMW'S INNOVATIVE STRENGTH IN THE CORE AREAS OF ELECTRIFICATION, DIGITALIZATION AND CIRCULARITY.

**Fully-electric vehicle architecture.**
Uncompromisingly optimized for electric **drivetrains**. Scalable technology clusters – highly innovative components and digital modules – can be integrated in all segments and models allowing outstanding vehicle performance.

**Major technological leap.**
Optimization of weight, air and rolling resistance as well as intelligent heat management.
- Wheels, brakes and tires save >9 wh/km,
- New heat pump and improved air streams add **+40% efficiency** in winter,
- Heating and cooling components **weight -25%** result in **-20% in costs**.

**Ground-breaking features.**
Typical BMW driving pleasure and emotional design enriched with novel user experience via the BMW Panoramic Vision, Central Display, 3D Head-up Display and multifunction buttons on the steering wheel.

\(^1\)All numbers in comparison to the status quo.
THE BMW GROUP SETS ICONIC IMPULSES BY RETHINKING PREMIUM INDIVIDUAL MOBILITY CONSTANTLY AND DISTINCTIVELY FOR ALL ITS BRANDS.

- Strong brand design to transform customers' dreams into reality, today and in the future.
- Focus on electrification – in chorus with demand-oriented offers of other powertrains.
- Continuously developing battery generations while balancing costs and sustainability.

STRATEGY.
BRANDS.
PRODUCTS.
WE ARE MORE THAN THE SUM OF THE BRANDS AND OUR BRANDS ARE STRONG ASSETS WHICH WE EVOLVE IN AN EVER-CHANGING WORLD.

BMW GROUP

FREUDE FOREVER
The emotional premium car brand ensuring driving pleasure for future generations.

BIG LOVE
The most loved urban small car brand.

INSPIRING GREATNESS
The pinnacle of luxury.

MAKE LIFE A RIDE
The premium motorcycle experience brand.

Fully electric from early 2030s
WE DESIGN INSPIRING PREMIUM VEHICLES WITH AUTHENTIC, EMOTIONAL CHARACTER THAT PROVIDE DEMAND-ORIENTED OFFERS ACROSS POWERTRAINS.
BMW HAS AN EXPANSIVE MODEL LINEUP FOR BATTERY ELECTRIC VEHICLES, COVERING ALL SEGMENTS.

**Key Milestones:**
- Electrification of the BMW Group fleet started in 2019 and continues with the launch of the BMW i3.
- By Q4/2024, more than 2 million BMW Group BEV were delivered.
- By 2030, the BMW Group aims for 50% of its annual sales to be fully electric vehicles.
- By Q1/2024, the BMW Group is offering 25 fully electric models in 12 different market segments.

*To be available in May 2024*
WE HAVE A COMPELLING FAMILY OF BATTERY-ELECTRIC VEHICLES WITH AT LEAST ONE BEV MODEL AVAILABLE IN ALL MAJOR SEGMENTS.

Pioneer since 2013.

We significantly increased sales of all-electric cars (BEVs) in 2023 (+74.4%).

We achieved our target of 15% all-electric cars as proportion of our total sales in 2023.

By 2030 we expect BEVs will account for >50% of global sales and will be available for 100% of today's market segments.
WE ARE RAMPING UP OUR GLOBAL NETWORK FOR THE PRODUCTION OF HIGH-VOLTAGE BATTERIES.

Battery technology

- GEN5
- GEN6

* Battery Cell Competence Centre.
** Cell Manufacturing Competence Centre.
WE MAKE A STEP CHANGE WITH EACH BATTERY GENERATION AND THE NEXT WILL BE CO₂-REDUCED, RESOURCE-EFFICIENT AND AT MUCH LOWER COST.

We took the strategic decision to introduce a **cylindrical battery cell** design for our 6th generation coming in 2025.

+30% range  
-30% charging time  
-60% CO₂ in cell production  
-40 to 50% cost on pack level and drivetrain*

**Production** of battery cells with **100% electricity from renewable sources**.

* Estimate based on comparable e-range and scope of components compared to the current Gen5 eDrive System comprising of the high-voltage battery pack and the electric drivetrain.

Long term in-house competence from molecules to cell and from basic research to application.

All numbers refer to base year 2019.
PURCHASING FOR THE NEXT GENERATION OF BMW GROUP BATTERY CELLS – OUR OBJECTIVES.

AIMS

- Technology and innovation capabilities
- Localisation in each region
- Cost leadership
- Volumes and flexibility
- Sustainability
- Strategic partnership

IMPACT | STRATEGY | FINANCIALS
BMW GROUP IS LEVERAGING IN-HOUSE EXPERTISE TO PROVIDE MAXIMUM SUPPORT FOR INDUSTRIALISATION AND RAMP-UP OF PARTNER CELL FACTORIES.

In-house Competence: Battery Cell Competence Centre & Cell Manufacturing Competence Centre.

Enabling of Partners.

Start of Production.
FOCUS ON SUSTAINABILITY: CO₂-REDUCED PRODUCTION USING GREEN POWER AND SECONDARY MATERIAL.

- CO₂ reductions in supply chain.
- Environmental and social standards in supplier network.
- Circular economy, resource efficiency.

-60% CO₂ (in cell production)

Long-term goal: circular loops

Secondary material
HYDROGEN FUEL CELL TECHNOLOGY HAS THE POTENTIAL TO SERVE AS ANOTHER PILLAR IN THE BMW GROUP’S FUTURE DRIVE SYSTEM PORTFOLIO.

Zero emission.  
Great acceleration.  
H2.  
Short refueling.

The BMW iX5 Hydrogen combines long-distance capability and short refuelling stops with locally emission-free driving.

Vehicles from the pilot fleet are currently in action in Europe, Japan, Korea, China, the USA and the Middle East to gain experience on everyday usability.

We systematically develop hydrogen fuel cell technology as an additional option for locally emission-free individual mobility in the future.
THE BMW GROUP SETS STANDARDS IN DIGITALIZATION, VEHICLE CONNECTIVITY AND HOLISTIC RESOURCE MANAGEMENT.

Comprehensive and intuitive user interfaces and state-of-the-art software development.

Leading in the OTA\(^1\) upgrade business with the world's largest fully upgradeable fleet.

Protecting natural resources and critical raw materials by implementing ‘secondary first’.

STRATEGY.
DIGITALIZATION.
SUSTAINABILITY.
OUR VEHICLE USER EXPERIENCE IS WITHOUT COMPROMISE AND GIVES OUR CUSTOMERS THE FULL CONTROL.
WE HAVE FULL CONTROL OVER OUR DIGITAL CAR TECH STACK FOR SEVERAL GENERATIONS ALREADY.

>22 million BMW Group vehicles connected to BMW Cloud.

1\(^{UI}\): User Interface. 2\(^{ADAS}\): Advanced Driver Assistance System. 3\(^{CPU/GPU}\): Central Processing Unit / Graphics Processing Unit.
OS9 builds on AOSP2 serving BMW & MINI mid & compact class vehicles mid of 2023 on, impressing with a content-driven setup.

The new OS8.5 is gradually introduced in all BMW midsize, executive & luxury models and continues to be based on Linux.

We are continuously improving our infotainment HMI1 - no matter whether compact, middle or upper class segment.

BMW Operating Systems (OS) stand for an unmistakable digital driving experience with BMW iDrive.

WE WILL DELIVER A DIFFERENTIATED DIGITAL OFFER TO INDIVIDUALS BASED ON A COMMON DIGITAL OPERATING LOGIC USING OUR NEW USER INTERFACE.

1HMI: Human Machine Interface. 2AOSP: Android Open Source Project.
OUR BMW OPERATING SYSTEMS ARE THE MOST POWERFUL, COMPREHENSIVE TECHNOLOGY PACKAGES EVER DEVELOPED BY BMW.

**BMW iDrive** addresses the top needs of our customers:
Modern interior paired with an intuitive and easy to use operating system.

Profound partnerships with different leading global tech players.
Customers can use their personal favorite apps and services.

The **NEUE KLASSE** will set the benchmark for a holistic user experience featured by the fascinating new BMW iDrive Technology.

**MY BMW/MINI App** become the leading interaction channel.
Enabler for Engagement, Transactions and Sales.

OUR CONNECTED FLEET IS THE LARGEST IN THE WORLD AND REACHES ALMOST 22 MILLION VEHICLES IN 86 COUNTRIES, SENDING 12 BN REQUESTS EVERY DAY.

We focus on improved customer experience and scalable cloud technologies which safeguard the long-term availability of digital products and services.

We use anonymized real life data from vehicles to enhance our continuous development activities with data protection as top priority.

Our strategic partnership with Amazon Web Services brings new cloud technologies for fast and reliable availability of digital innovations.
WE HAVE A STRONG HISTORY IN DRIVER ASSISTANCE DEVELOPMENT AND ALWAYS FOCUS ON SAFETY AND CUSTOMER BENEFITS.
PINNACLE L2+ AND L3 DRIVING FEATURES REDUCE THE COMPLEXITY OF DRIVING IN REPETITIVE AND EXHAUSTING SITUATIONS.

Level 2+ Highway Assistant

We are the first automaker to be approved for hands-free driving up to 130kph improving driver comfort on long-distance drives.

In addition, we are the first offering the active lane change, with view-confirmation.

Level 3 Automated Driving

Bringing hands-free, eyes-off driving on highways to selected vehicles and enabling entertainment, productivity or relaxation for the driver while driving up to 60 kph.

Safety and robustness is at the core of all our features.

Co-development strategy.

We partner with leading technology companies aiming for cost and revenue sharing.
OUR LARGEST TEST SITE IN SOKOLOV IS 600 HECTARES & ALLOWS US TO DEVELOP THE BEST AUTOMATED DRIVING INNOVATIONS FOR OUR CUSTOMERS GLOBALLY.

Customer-oriented.

100% green electricity.

Reliable.

The Future Mobility Development Center in Sokolov (Czech Republic) offers the best real-world conditions for testing of highly and fully automated driving (up to L4) and parking to supplement the virtual simulation of driving situations and thus meeting the highest safety requirements of our customers.
WE TAKE CUSTOMER CENTRICITY TO THE NEXT LEVEL AND DELIVER ON POINT TO THE WIDE RANGE OF MARKET DESIRES.
OUR CUSTOMER EXPERIENCE IS BEST-IN-CLASS AND WE WILL TRANSFORM OUR SALES MODEL WHILE LEVERAGING OUR STRONG DEALER NETWORK.

Phygital. Online. Offline.

We enrich the premium customer experience through direct customer access. At the same time we improve price realization through the shift in pricing power and process efficiency improvements based on data-driven sales steering.

The brand-by-brand transition to an agency model creates clarity for our partners and for us. In 2023 we started with MINI in China and launched in Europe in 2024. In 2026 we will transition BMW in Europe.
OUR MY BMW AND MINI APP ARE AVAILABLE IN >80 MARKETS AND HAVE ALREADY MORE THAN 13 MILLION ACTIVE USERS.

Clever features, practical services, and helpful tips used by 3.6 million active customers per day.

The My BMW & MINI App…

… is the ultimate indispensable vehicle companion.

… the leading customer interaction channel.

… empowers sales and drives transactions.

Designed to maximize our customers’ driving experience, including planning routes sent directly to the car, checking vehicle status and scheduling service actions as well as easily accessing the fuel or battery level.

Figures:

87% of the vehicles sold in 2023 are linked to the App.

The app is rated at 4.8 (out of 5) in the App Store.
OUR WORLDWIDE CHARGING INFRASTRUCTURE STRATEGY LEVERAGES MULTIPLE SOLUTIONS TO DELIVER REACH AND PERFORMANCE IN THE CHARGING NETWORK.

**Europe.**
29 countries. >560,000 charge points. Every <120 km. Our network has the right type of charger ready for our customers. We aggregate the vast majority of charge point operator and continuously add new player and offer.

**North America.**
Together with six major global automakers we create an unprecedented new charging network joint venture, expanding access significantly and installing >30,000 high-powered charge points in urban and highway locations.

**China.**
Together with Mercedes Benz China we create a joint venture to build up a public high power charging network with premium services to our customers. Until the end of 2026, at least 1,000 stations nationwide with >7,000 charge points will be installed.
WE PIONEER INNOVATION IN THE AUTOMOTIVE INDUSTRY AND VIEW CIRCULARITY AS A KEY ENABLER TO ACHIEVING CO₂ TARGETS.
WE INTENSELY FOCUS ON CIRCULAR ECONOMY TO SIGNIFICANTLY REDUCE CO₂ EMISSIONS WITH CLOSED-LOOPED CYCLES AND CROSS-INDUSTRY APPROACHES.

RE:THINK. We keep circularity in mind during all our deliberations.

RE:DUCE. Using less to achieve more, wherever and however we can.

RE:USE. Extending the use of our products for as long as we can.

RE:CYCLE. Keeping resources in circulation for as long as we can.

Alloy wheels made of up to 100% secondary aluminum.

~2,800 collection points worldwide for recycling end-of-life vehicles.

Ability to recover >90% of the high-voltage storage systems raw material.
WE ARE COMMITTED TO ACHIEVING THE 1.5°C TARGET AND OUR INTEGRATED REPORT AND ADDITIONAL VOLUNTARY REPORTS OFFER BROAD TRANSPARENCY.

The BMW Group was the first German carmaker to join the "Business Ambition for 1.5°C" and commits to achieve climate-neutrality along the value chain by 2050. It also automatically makes us a member of the UN's Race to Zero program.

Approximately 39% of the total variable target remuneration of the Board members is linked to environmental, social or governance (ESG) targets.
WE PROTECT NATURAL RESOURCES, SAFEGUARD CRITICAL RAW MATERIALS AND USE GREEN ENERGY WORLDWIDE.

**Lithium.**
Direct sourcing from mines in Australia, Argentina and Chile. Investments in startups for sustainable lithium extraction through BMW iVentures¹.

**Cobalt.**
Direct sourcing from mines in Australia and Morocco. Development project for responsible mining in DR Kongo.

**Natural rubber.**
Founding member of the global platform for Sustainable Natural Rubber. Ground project in Indonesia.

**Renewable energy.**
All plants are operated with green electric power. Electrical energy is also generated from solar panels, local rivers, wind turbines and biomass.

¹iVentures is our Silicon Valley based venture capital firm investing in purpose-driven entrepreneurs with high-performance companies, while providing access to resources and an ecosystem of specialists across hardware, software, and sustainability.
OUR PERFECTLY BALANCED WORLDWIDE FOOTPRINT COMPRISSES >30 PRODUCTION SITES ON 4 CONTINENTS.

*The BMW Group places orders for series production of automobiles and motorcycles, in addition, with external partners (contract manufacturers).
BMW iFACTORY.

BMW GROUP PRODUCTION SETS STANDARDS FOR THE PRODUCTION OF THE FUTURE.

We meet the growing customer demand for electric vehicles and, as a member of society, make a significant contribution to climate protection and sustainability.

We take advantage of the opportunities presented by digitalization and remain competitive.

The strategic priorities of the BMW iFACTORY LEAN, GREEN and DIGITAL set the direction for our path.

LEAN.
Efficient, precise and flexible.

Green energy. Our goal: by 2025, we will reduce CO₂ emissions from production per vehicle by 40%. In this way, we are helping to reduce the overall emissions of our vehicles by 40% over their entire life cycle by 2030.

GREEN.
The latest technologies - resource-saving and circular.

For GREEN, we rely on state-of-the-art technologies - resource-optimized and circular. Every location systematically uses green energy. Our goal: by 2025, we will reduce CO₂ emissions from production per vehicle by 40%. In this way, we are helping to reduce the overall emissions of our vehicles by 40% over their entire life cycle by 2030.

DIGITAL.
Digitalization a key enabler for progress.

Digitalization supports us in achieving our key production targets by 2025: sustainability (-40% CO₂/vehicle), delivery reliability, quality and costs per unit (-25%).

Standards and stable processes ensure the premium quality of our products worldwide. We consistently align every further development with the value stream. The production costs per unit will fall by an average of 25% by 2025 vs. 2019.
BMW iFACTORY – DIGITAL.
EXAMPLES AT A GLANCE.

- The collaborative data-ecosystem
- Virtual factory planning.
- 3D human simulation.
- AIQX - New standard for quality inspection processes.
- Shopfloor.Digital
- Data analytics in the (digital) supply chain.
- Digital maintenance through predictive maintenance solutions.
- Automated driving in the factory.
- Car-2-X communication in the value chain.
- Automated surface treatment.

Digital Twin - Digital planning data for buildings, systems and products.

Detect problems before they arise. Digital maintenance through predictive maintenance solutions.

Simulation of complete manufacturing and assembly processes:

AI-controlled robots process each vehicle according to objective quality standards.
Adapted to local conditions, we select the best supply for our plant locations.

San Luis Potosí
100% CO₂-free electrical energy from solar panels.

Leipzig
Powering BMW production with wind energy and hydrogen.

Shenyang
Geothermal energy under investigation.

Munich
Renewable energy from regional hydropower.

Debrecen
Nearly fossil-free thanks to electric process heat, solar modules with thermal storage.

Steyr/Dingolfing
CO₂-neutral local/district heating.
WE PARTNER WITH LEADING TECH PLAYERS, CONSTANTLY DRIVING END-TO-END DIGITALIZATION BASED ON LEAN PROCESSES AND SCALABLE SOLUTIONS.

**Virtualization.**
A collaborative revolution making planning processes more efficient and modellable in real time. Thus reducing investments and realizing more stable product launches.

**Humanoid robots.**
Agreement with Figure to introduce “general purpose” humanoid robots in BMW's Spartanburg facility.

**Data-driven value chain.**
Component traceability along the entire process chain taking data consistency to a new level.

**Artificial intelligence.**
AIQX creates a new standard for test processes in visual and acoustic quality checks, rapidly scaling across all technologies and sites.
WE FOCUS ON THE ENTIRE BATTERY VALUE CHAIN AND ENSURE HIGHEST TRANSPARENCY, FLEXIBILITY AND KNOW-HOW. WE ARE TOP 3 WITH 175 PATENTS.¹

Battery cell factory strategy.
We leverage in-house expertise to provide maximum support for industrialization and ramp-up our partner cell factories. Our strategic partnerships and our local for local approach enable us to bring the battery cell technology, optimal for our customers, to series production in the shortest possible time empowering suppliers in unity with our specifications.

Battery Cell Competence Centre.
The BCCC in Munich spans the entire value chain, from research and development to battery cell design. Here we acquire product expertise.

Cell Manufacturing Competence Centre.
The CMCC in Parsdorf² empowers us to consider the whole cell value creation process and further optimize battery cell production.

¹BMW Group patent applications in Germany 2022. ²Parsdorf is located near Munich.
WE ENCOURAGE OUR ASSOCIATES TO DEVELOP THEIR FULL POTENTIAL AND STRIVE FOR THE BEST POSSIBLE RESULTS AS A TEAM.
OUR EMPLOYEE'S SKILLS ARE THE BASIS TO MASTER THE PROGRESS. HENCE, WE CONTINUOUSLY DEVELOP THEM AND ATTRACT NEW TALENTS.

**Strong cooperations** with leading universities, other companies, tech partners and through platforms **allow early retention** of qualified junior staff.

**Highlights 2023.**
- 1.4 m training participants.
- € 470 m invested in training and further education for employees.

**Digital Boost 2023.**
The largest individual, virtual, learning qualification program in the history of the company.

**1st place** of Trendence Professionals Barometer for Germany for 12 successive years and globally ranked 3rd in World's Most Attractive Employers study (Universum).
WE HAVE EXCELLENT SOFTWARE ENGINEERS WITH A DEEP UNDERSTANDING OF MOBILITY AND THE NECESSARY MEANS TO IMPLEMENTATION CHANGE.

Global.  
State-of-the-art.  
Demand-driven.

We have developed software in-house at BMW for over 20 years and complement this with joint ventures to further strengthen our expertise.

Our "pick-the-best" approach guarantees our success: We make, we buy, we open-source and we co-develop with the most renowned partners.

We have >9,400 Software and IT Experts within our global development network (Europe, China, U.S, South Africa, Japan, Brazil).
THE BMW GROUP OFFERS A STRONG BALANCE SHEET, INDUSTRY-LEADING CREDIT RATINGS AND RELIABLE STAKEHOLDER RETURNS.

**FINANCIALS. OUR ROBUST RESULTS.**

- Solid 8 – 10% Auto EBIT margin.
- Consistently reliable dividend payout ratio to shareholders of 30 – 40%.
- Stringent capital management and business focus through share buyback activities.
WE KEEP OUR NO. 1 POSITION IN GLOBAL PREMIUM SEGMENT MAINTAINING PROFITABLE GROWTH COURSE WITH ALL BRANDS.

Successful year 2023.
Solid increase in deliveries (+6.5%) and double-digit growth in the top-end segment.

\(^1\)Total dividend payout to BMW AG shareholders divided by Group net profit. The calculation base for the payout ratio changed from ‘net profit’ to ‘net profit attributable to BMW AG shareholders’ (net profit after minorities) for FY-2022 and onwards.

\(^2\)Preferred stock, to which no voting rights are attached, bear an additional dividend of € 0.02 per share. According to the BMAG AG articles of association, preferred shares receive an additional dividend of € 0.02 per share.

\(^3\)The payout amount and payout ratio are preliminary. As a result of the ongoing share buyback program, the number of dividend-bearing shares is expected to decrease until the AGM.

\(^4\)Proposed dividend. \(^5\)Represents final dividend payout amount and payout ratio taking into account share buyback activities until the AGM.

Strategic target.

Continue with an attractive payout ratio within strategic dividend corridor of 30 – 40%.

OUR SOLID OPERATING BUSINESS PERFORMANCE ENABLES CONSISTENTLY RELIABLE DIVIDEND PAYOUTS TO OUR SHAREHOLDERS.
WE STRONGLY FOCUS ON SHAREHOLDER RETURNS BY CONTINUING OUR SHARE BUYBACK ACTIVITIES.

**AGM authorization in May 2022.**
Up to 10% of share capital can be acquired by 05/2027.

**Share Buyback Program 1.**
€ 2 bn share buyback executed from 07/2022 until 06/2023.

**Share Buyback Program 2.**
Up to € 2 bn, to be finalized by 12/2025.

Strategic guidance.
Staying course on overall strategic BMW Group priorities executing share buyback in a flexible manner.
Cash outflow is supported by FCF generation.
WE ARE STEERING THE COMPANY TOWARDS PROFITABILITY AND LEVERAGING EFFICIENCIES IN 2024.

**BMW Group.**
- Profit before tax: Slight decrease.
- Size of workforce: Slight increase.

DISCLAIMER.

This document contains forward-looking statements that reflect BMW Group's current views about future events. The words "anticipate," "assume," "believe," "estimate," "expect," "intend," "may," "can," "could," "plan," "project," "should" and similar expressions are used to identify forward-looking statements.

These statements are subject to many risks and uncertainties or may be affected by factors outside BMW Group's control, including adverse developments in global economic conditions resulting in a decline in demand in BMW Group's key markets, including China, North America and Europe; a deterioration in credit and financial markets; a shift in consumer preferences affecting demand for BMW Group's products; changes in the prices of fuel or raw materials; disruption of production due to shortages of materials, labor strikes or supplier insolvencies; the effective implementation of BMW Group's strategic goals and targets; changes in laws, regulations and government policies, particularly those relating to vehicle emissions, fuel economy and safety; and other risks and uncertainties, including those described under the heading "Report on Risks and Opportunities" in BMW Group's most recent Annual Report.

If any of these risks and uncertainties materializes or if the assumptions underlying any of BMW Group's forward-looking statements prove to be incorrect, actual results may be materially different from those BMW Group expresses or implies by such statements. BMW Group does not intend or assume any obligation to update these forward-looking statements.
