

BMW 2 Series Active Tourer (DATE 03/2026)	
The BMW Group is committed to sustainable principles and is therefore taking proactive measures to avoid certain chemicals in the production of our vehicles. Due to that only substances that are technically required in the product are still contained. The substances are incorporated in such a way that potential exposure to the customer is minimized, and danger for humans or the environment can be excluded. As long as the vehicle and its parts are used as intended, and any repairs, servicing and maintenance are carried out following technical instructions for those activities, and industry standard good practices. Safe use of the product is described in the owner manual that is consistent with our own commitment to promote the responsible manufacturing, handling and use of our products. Our information on repair and servicing of vehicles and genuine parts also includes safe use information for service personnel. An end-of-life vehicle may only be disposed of legally in the European Union at an Authorised Treatment Facility (ATF). Vehicle parts should be disposed of in accordance with locally applicable laws and local authority guidance.	
<b>Communication of information according to Article 33 REACH</b>	
This product is composed of articles defined under Article 3(3) of the Regulation No 1907/2006 of the European Parliament and the Council concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH). Any supplier shall comply with the duty to communicate information on substances in articles in accordance to Article 33. This product, including any article that the product is composed of, does contain substances meeting the criteria in Article 57 and identified in accordance with Article 59(1) in a concentration above 0.1 % weight by weight (w/w). We inform that lead (CAS-Nr. 7439-92-1) is used in almost all products categories, primary as alloying element. Recycled aluminum and metals may contain lead as impurity.	
<b>Name of substance meeting the criteria in Article 57 and identified in accordance with Article 59(1) in a concentration above 0.1 % weight by weight (Typical use according to the REACH Annex XV Dossier)</b>	<b>Location of article containing the substance in the product (Detailed, including optional equipment)</b>
1,2-Dimethoxyethane, ethylene glycol dimethyl ether, EGDME (Typically as process solvent and for surface treatment)	Wheels and tires (Car wheels)
6,6'-Di-tert-butyl-2,2'-methylene-di-p-cresol (Typically for production of polymers and rubbers)	Body (Boot lid latch, locks and fittings, Safety belts) Electronic (Control units, moduls, Potential equalization) Powertrain (Delivery, preparation and content measurement, control units, fuel pump, Electronic switching or control devices, Fuel lines, Ventilation, evaporation emission control) Powertrain/Chassis (Stickers)
2-Methyl-1-(4-methylthiophenyl)-2-morpholinopropan-1-one (Typically used in coatings, paints and fillers)	Electronic (Cable harness, High voltage charging electronics, Switch, sensor) Entertainment and Navigation (Antenna, Radio, amplifier, CD-player) Powertrain (Electric machine individual components)
2-Methylimidazole (Typically as hardener in epoxy resins and for production of adhesives)	Chassis (Output shafts) Electronic (High voltage charging electronics) Entertainment and Navigation (Anti-theft device, Video and tv-sets)
4,4'-isopropylidenediphenol (Typically for production of polymers and resins)	Drive Assistance (Rear view camera) Electronic (DC/DC-converter, High voltage charging electronics) Entertainment and Navigation (Radio, amplifier, CD-player)
Bis(4,4-dimethylbenzyl) peroxide (Typically used for production of polymers and as a processing aid and cross-linker in polymers)	Body (Air guides, Airbags, Boot lid latch, locks and fittings) Chassis (Front wheel brakes, Rear wheel brakes, Steering column) Electronic (Battery with holder, High-voltage accumulator system, Windshield wipers) Heating and air conditioning (Air conditioner, Heater with control, seat heating) Powertrain (Coolant pump with drive, Expansion tank, Housing ventilation, Supercharging contrivance with regulation, Thermostat and engine mounted cooling lines, Vibration damper) Wheels and tires (Car wheels)
Diazene-1,2-dicarboxamide, ADCA (Typically as blowing agent in plastic and rubber manufacturing)	Body (Bonnet latch, locks and fittings, Boot lid latch, locks and fittings) Chassis (Rear axle suspension) Electronic (Plug-connection cable, clamp) Interior (Front seats)
Diboron trioxide (Typically for production of borosilicate and crystal glass)	Communication (Off-hands mobile communication) Electronic (DC/DC-converter, High voltage charging electronics, High-voltage accumulator system) Heating and air conditioning (Auxiliary heater with control elements) Interior (Mirrors, sun visors, ashtrays, trays) Powertrain (Coolant pump with drive, Electronic switching or control devices, Selective catalytic reduction technology)
Boric acid (Typically for production of glass and ceramics and as flame retardant)	Electronic (Inner lights) Powertrain (Starter with mount)
Decamethylcyclotrisiloxane (Typically as feedstock for the production of silicone polymers)	Electronic (Auxiliary cable, Control units, moduls, DC/DC-converter, High voltage charging electronics, High-voltage accumulator system) Heating and air conditioning (Air conditioner) Powertrain (Control Hybrides/E-drive, Double clutch transmission, Housing cover, Injection nozzles and tubing, Oil pressure, -temperature, oil level indicator)
Dodecamethylcyclotrisiloxane (Typically as feedstock for the production of silicone polymers)	Body (Sealings) Electronic (Auxiliary cable, Control units, moduls, High voltage charging electronics, High-voltage accumulator system, High-voltage battery individual components) Heating and air conditioning (Air conditioner) Powertrain (Carbon canister ventilation, Control Hybrides/E-drive, Coolant pump with drive, Double clutch transmission, Exhaust gas recirculation, Housing cover, Injection nozzles and tubing, Sensor for injection control unit, Starter with mount, Thermostat and engine mounted cooling lines) Body (Bumper rear, Window mechanism with electrical control in front door, Window mechanism with electrical control in rear door) Chassis (Front axle suspension) Communication (Off-hands mobile communication) E-Drive (Drive for window filter) Powertrain (Starter with mount)
Imidazolidine-2-thione (Typically for production of polymers and rubbers)	Communication (Off-hands mobile communication) E-Drive (Drive for window filter) Powertrain (Starter with mount)
N,N-Dimethylacetamide (Typically as process solvent in polymer production)	Powertrain (Thermostat and engine mounted cooling lines)
Octamethylcyclotrisiloxane (Typically as feedstock for the production of silicone polymers)	Electronic (Auxiliary cable, High voltage charging electronics, High-voltage accumulator system) Entertainment and Navigation (Video and tv-sets) Powertrain (Housing cover, Injection nozzles and tubing)
Triphenyl phosphite (TPP); (Typically used for adhesives and sealants, coating products)	Electronic (Auxiliary cable, High voltage charging electronics) Interior (Mirrors, sun visors, ashtrays, trays) Powertrain (Oil pump with strainer and drive)
Tris(4-nonylphenyl, branched and linear) phosphite, TNPP (Typically for production of polymers and rubbers)	Electronic (DC/DC-converter)
1,1'-(Ethane-1,2-diyl)bis[pentabromobenzene] (Typically as dispersing agent in coatings, adhesives, sealants, fillers)	Body (Bonnet latch, locks and fittings, Boot lid latch, locks and fittings, Bumper rear, Loose car body components, Windshield and rear window) Chassis (Rear wheel brakes, Steering column) Electronic (Auxiliary cable, Battery with holder, Cable harness, Front lamp cluster, Head-up Display, High voltage charging electronics, High-voltage accumulator system) Entertainment and Navigation (Antenna, Video and tv-sets) Heating and air conditioning (Air conditioner, Heater with control, seat heating) Interior (Front seats, Mirrors, sun visors, ashtrays, trays) Powertrain (Catalyst with suspension, DPF, Control Hybrides/E-drive, Coolant pump with drive, Electric machine individual components, Engine wiring harness, Injection nozzles and tubing, Selective catalytic reduction technology, Starter cable, Switch and relays, Transmission wiring harness)
1,6,7,8,9,14,15,16,17,17,18,18-Dodecachloropentacyclo[12.2.1.16.9.02.13.05.10]octadeca-7,15-diene, "Dechlorane Plus"™ (Typically as flame retardant)	Electronic (High voltage charging electronics)
2,2',6,6'-tetrabromo-4,4'-isopropylidenediphenol (Typically as flame retardant and as additive in plastics and resins)	Drive Assistance (Adaptive cruise control) Electronic (Control units, moduls, High voltage charging electronics, Switch, sensor) Entertainment and Navigation (Airbag-releasing device, Antenna, Radio, amplifier, CD-player) Interior (Mirrors, sun visors, ashtrays, trays) Powertrain (Control Hybrides/E-drive, Coolant pump with drive, Double clutch transmission, Exhaust gas recirculation, Injection control unit, Sensor for injection control unit, Supercharging contrivance with regulation, Thermostat and engine mounted cooling lines)
Aluminoasilicate Refractory Ceramic Fibres (Typically for heat insulation)	Powertrain (Catalyst with suspension, DPF)
Cobalt(II) sulphate (Typically for surface treatment)	Body (Safety belts)
Melamine (Typically used in coatings, inks, resins and polymers)	Communication (Off-hands mobile communication) Electronic (Cable harness, High voltage charging electronics, Switch, sensor) Interior (Front seats) Powertrain (Control Hybrides/E-drive, Fuel tank with filler pipe)
Bumetrizole (Typically as plasticizer for production of polymers and paints)	Body (Boot lid latch, locks and fittings, Sealings, Side window in body electrically operated, Window mechanism with electrical control in front door) Chassis (Brake control (Hydraulic system), Steering column) Electronic (Auxiliary cable, Plug-connection cable, clamp, Rear light cluster) Heating and air conditioning (Air conditioner, Nozzles, flow-out organs) Powertrain (Housing cover, Injection nozzles and tubing)
4,4'-(2,2,2-trifluoro-1-(trifluoromethyl)ethylidene)diphenol (Bispheno AF), (Typically used for formulation and production of polymers & polymer processing)	Powertrain (Double clutch transmission, Intake manifold, Intake silencer, Throttle valve and control)
Diphenyl(2,4,6-trimethylbenzoyl)phosphine oxide (Typically as additive in plastic applications, for adhesives, sealants, coatings and inks)	Communication (Off-hands mobile communication)
Cobalt(II) nitrate hexahydrate (Typically as additive in magnets for electronic assemblies)	Interior (Mirrors, sun visors, ashtrays, trays) Electronic (Head-up Display) Entertainment and Navigation (Video and tv-sets)
2-(2H-benzotriazol-2-yl)-4-(1,1,3,3-tetramethylbutyl)phenol (Typically as dispersing agent in coatings, adhesives, sealants, printing inks, fillers)	Chassis (Steering column) Communication (Off-hands mobile communication) Drive Assistance (Adaptive cruise control) Electronic (Front lamp cluster, Inner lights, Rear light cluster, Switch, sensor) Entertainment and Navigation (Radio, amplifier, CD-player) Heating and air conditioning (Heater with control, seat heating) Interior (Front door trim panel with armrests, Instrument panel, Mirrors, sun visors, ashtrays, trays)
2-benzy-2-dimethylamino-4'-morpholinobutrophenone (Typically for adhesives, sealants, coatings and inks)	Electronic (Control units, moduls)
Potassium 1,1,2,2,3,3,4,4,4-nonafluorobutane-1-sulfonate (Typically as flame retardant in polycarbonate)	Electronic (Battery with holder, High voltage charging electronics)
2-(dimethylamino)-2-(4-methylphenyl)ethyl-1-(4-morpholin-4-yl)phenylbutan-1-one (Typically as plasticizer for production of polymers and paints)	Powertrain (Starter with mount)
The information provided in this document related to material and substance content represents our knowledge and belief, which may be based in whole or in part on available information provided by suppliers to us. Additional Information: Certain inorganic oxides are bound in glass or ceramic matrices that change their individual substance properties as well as their communication duties under REACH. Similar changes occur with certain precursors that are bound in polymers.
