

BMW IX (DATE 03/2026)	
<p>The BMW Group is committed to sustainable principles and is therefore taking proactive measures to avoid certain chemicals in the production of our vehicles. Due to that only substances that are technically required in the product are still contained. The substances are incorporated in such a way that potential exposure to the customers is minimised, and danger for humans or the environment can be excluded as long as the vehicle and its parts are used as intended, and any repairs, servicing and maintenance are carried out following technical instructions for those activities, and industry standard good practices. Safe use of the product is described in the owner manual that is consistent with our own commitment to promote the responsible manufacturing, handling and use of our products. Our information on repair and servicing of vehicles and genuine parts also includes safe use information for service personnel. An end-of-life vehicle may only be disposed of legally in the European Union at an Authorised Treatment Facility (ATF). Vehicle parts should be disposed in accordance with locally applicable laws and local authority guidance.</p>	
<p><b>Communication of information according to Article 33 REACH</b></p>	
<p>This product is composed of articles defined under Article 3(3) of the Regulation No 1907/2006 of the European Parliament and the Council concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH). Any supplier shall comply with the duty to communicate information on substances in articles in accordance with Article 33. This product, including any article that the product is composed of, does contain substances meeting the criteria in Article 57 and identified in accordance with Article 59(1) in a concentration above 0,1 % weight by weight (w/w). We inform that lead (CAS-Nr. 7439-92-1) is used in almost all products categories, primary as alloying element. Recycled aluminum and metals may contain lead as impurity.</p>	
Name of substance meeting the criteria in Article 57 and identified in accordance with Article 59(1) in a concentration above 0,1 % weight by weight (Typical use according to the REACH Annex XV Dossier)	Location of article containing the substance in the product (Detailed, including optional equipment)
1,2-Dimethoxyethane, ethylene glycol dimethyl ether, EGDME (typically as process solvent and for surface treatment)	Wheels and tires (Car wheels)
6,6'-Di-tert-butyl-2,2'-methylene-di-p-cresol (typically for production of polymers and rubbers)	Body (Boot lid latch, locks and fittings) Chassis (Pressure accumulator and pump unit) Drive Assistance (Distance warning systems) Electronic (Control units, moduls, High voltage charging electronics) Entertainment and Navigation (Loudspeaker and cover) Interieur (Mirrors, sun visors, ashtrays, trays) Powertrain/Chassis (Stickers)
2-Methyl-1-(4-methylthiophenyl)-2-morpholinopropan-1-one (typically used in coatings, paints and fillers)	Body (Boot lid latch, locks and fittings) Electronic (Cable harness, Switch, sensor) Entertainment and Navigation (Antenna, Central display and control unit, Radio, amplifier, CD-player) Powertrain (Electric machine individual components, Traction Unit)
2-Methylimidazole (typically as hardener in epoxy resins and for production of adhesives)	Body (Door locks, grab handles and front fittings, Door locks, grab handles and rear fittings) Chassis (Output shafts) Entertainment and Navigation (Anti-theft device)
4,4'-Isopropylidenediphenol (typically for production of polymers and resins)	Drive Assistance (Rear view camera) Electronic (Front lamp cluster) Entertainment and Navigation (Radio, amplifier, CD-player) Body (Air guides, Airbags, Boot lid latch, locks and fittings) Chassis (Pressure accumulator and pump unit, Rear axle differential mounting, Rear wheel brakes, Steering column) Electronic (Auxiliary cable, Front lamp cluster, Windshield wipers) Heating and air conditioning (Air conditioner) Powertrain (Expansion tank) Powertrain/Chassis (Board equipment) Wheels and tires (Car wheels)
Bis(α,α-dimethylbenzyl) peroxide (typically used for production of polymers and as a processing aid and cross-linker in polymers)	Body (Bumper front, Window mechanism with electrical control in front door) Electronic (Control units, moduls, High voltage charging electronics) Powertrain (Control Hybrides/E-drive, Engine cooler with mounting, Traction Unit, Transmission electric drive components)
Diazene-1,2-dicarboxamide, ADCA (typically as blowing agent in plastic and rubber manufacturing)	Body (Bonnet latch, locks and fittings, Boot lid latch, locks and fittings, Colours, paints and basic material) Electronic (Battery with holder)
Diboron trioxide (typically for production of borosilicate and crystal glass)	Communication (Off-hands mobile communication) Electronic (Control units, moduls, Front lamp cluster, Head-up Display, High-voltage battery individual components) Entertainment and Navigation (Airbag-releasing device, Video and tv-sets) Interieur (Mirrors, sun visors, ashtrays, trays)
Decamethylcyclotetrasiloxane (typically as feedstock for the production of silicone polymers)	Body (Window mechanism with electrical control in front door) Electronic (Control units, moduls, High voltage charging electronics) Powertrain (Control Hybrides/E-drive, Engine cooler with mounting, Traction Unit, Transmission electric drive components)
Dodecamethylcyclohexasiloxane (typically as feedstock for the production of silicone polymers)	Electronic (Control units, moduls, High voltage charging electronics) Powertrain (Control Hybrides/E-drive, Traction Unit, Transmission electric drive components)
Imidazolidine-2-thione (typically for production of polymers and rubbers)	Chassis (Front axle suspension) Communication (Off-hands mobile communication)
N,N-Dimethylacetamide (typically as process solvent in polymer production)	Electronic (High-voltage accumulator system, High-voltage battery individual components) Entertainment and Navigation (Loudspeaker and cover)
Octamethylcyclotetrasiloxane (typically as feedstock for the production of silicone polymers)	Body (Bumper front, Window mechanism with electrical control in front door, Windshield and rear window) Electronic (High voltage charging electronics) Heating and air conditioning (Heater with control, seat heating) Powertrain (Coolant pump with drive, Engine cooler with mounting)
Benzene-1,2,4-tricarboxylic acid 1,2 anhydride (typically as plasticizer for production of polymers)	Entertainment and Navigation (Loudspeaker and cover) Chassis (Anti-block system electrical components)
Triphenyl phosphate (TPP); (typically used for adhesives and sealants, coating products)	Entertainment and Navigation (Loudspeaker and cover, Video and tv-sets) Interieur (Mirrors, sun visors, ashtrays, trays)
1,1'-(Ethane-1,2-diyli)bis[pentabromobenzene] , (typically as dispersing agent in coatings, adhesives, sealants, fillers)	Body (Bonnet latch, locks and fittings, Bumper front, Bumper rear, Door locks, grab handles and front fittings, Loose car body components, Windshield and rear window) Chassis (Active rear axle kinematic, Rear wheel brakes, Steering column, Steering gear) Electronic (Auxiliary cable, Cable harness, Front lamp cluster, Head-up Display, High voltage charging electronics, High-voltage accumulator system, High-voltage battery individual components, Potential equalization, Windshield wipers) Entertainment and Navigation (Antenna, Central display and control unit, Loudspeaker and cover, Video and tv-sets) Interieur (Front seats, Instrument panel, Mirrors, sun visors, ashtrays, trays) Powertrain (Control Hybrides/E-drive, Electric machine individual components, Engine cooler with mounting, Engine wiring harness, Traction Unit) Powertrain/Chassis (Stickers)
2,2',6,6'-tetrabromo-4,4'-isopropylidenediphenol (typically as flame retardant and as additive in plastics and resins)	Drive Assistance (Adaptive cruise control) Electronic (Head-up Display, High-voltage accumulator system, High-voltage battery individual components, Switch, sensor) Entertainment and Navigation (Airbag-releasing device, Antenna, Radio, amplifier, CD-player, Video and tv-sets) Interieur (Front seats, Mirrors, sun visors, ashtrays, trays) Powertrain (Control Hybrides/E-drive, Traction Unit)
Melamine (typically used in coatings, inks, resins and polymers)	Body (Boot lid latch, locks and fittings) Electronic (Cable harness, High voltage charging electronics, High-voltage accumulator system, Switch, sensor) Entertainment and Navigation (Central display and control unit) Heating and air conditioning (Air conditioner) Powertrain (Control Hybrides/E-drive, Traction Unit)
Bumetrolone (typically as plasticizer for production of polymers and paints)	Body (Boot lid latch, locks and fittings, Bumper rear) Chassis (Brake control (Hydraulic system), Self-levelling elements for hydropneumatic system) Electronic (Auxiliary cable, Cable harness, Front lamp cluster) Heating and air conditioning (Air conditioner, Nozzles, flow-out organs) Interieur (Sliding roof)
4,4'-(2,2,2-trifluoro-1-(trifluoromethyl)ethylidene)diphenol (Bisphenol AF), (typically used for formulation and production of polymers & polymer processing)	Chassis (Steering column)
2-[2H-benzotriazol-2-yl]-4-(1,1,3,3-tetramethylbutyl)phenol (typically as dispersing agent in coatings, adhesives, sealants, printing inks, fillers)	Body (Bumper front, External fittings) Communication (Off-hands mobile communication) Electronic (Front lamp cluster, Inner lights, Switch, sensor) Entertainment and Navigation (Central display and control unit, Loudspeaker and cover, Radio, amplifier, CD-player) Heating and air conditioning (Heater with control, seat heating) Interieur (Mirrors, sun visors, ashtrays, trays)
2,3-dibromo-1-propanol, 2,3-DBPA (typically as an intermediate in the manufacture of fine chemicals)	Electronic (High voltage charging electronics)
Diocetyl dilaurate (typically for production of polymers, coating products, adhesives and sealants)	Interieur (Headlining)
Potassium 1,1,2,2,3,3,4,4,4-nonfluorobutane-1-sulfonate (typically as flame retardant in polycarbonates)	Electronic (High voltage charging electronics)
2-(dimethylamino)-2-[(4-methylphenyl)methyl]-1-[4-(morpholin-4-yl)phenyl]butan-1-one (typically as plasticizer for production of polymers and paints)	Entertainment and Navigation (Video and tv-sets)
<p>The information provided in this document related to material and substance content represents our knowledge and belief, which may be based in whole or in part on available information provided by suppliers to us. Additional Information: Certain inorganic oxides are bound in glass or ceramic matrices that change their individual substance properties as well as their communication duties under REACH. Similar changes occur with certain precursors that are bound in polymers.</p>
