NOTES

BASIS OF PREPARATION

The financial statements of Bayerische Motoren Werke Aktiengesellschaft (BMW AG) have been drawn up in accordance with the accounting provisions contained in the German Commercial Code (HGB) and legislation applicable to stock corporations. Figures are presented in millions of euro (€ million) unless otherwise stated. BMW AG, which has its legal seat in Munich, is registered in the Commercial Register of the District Court of Munich under the number HRB 42243.

Key figures presented in this report have been rounded in accordance with standard commercial practise. In certain cases, this may mean that values do not add up exactly to the stated total and that percentages cannot be derived from the values shown.

The income statement is presented using the cost of sales method. The financial year is the same as the calendar year.

ACCOUNTING POLICIES

In order to improve clarity, individual items are aggregated in the balance sheet and income statement and presented separately in the notes to the financial statements.

Purchased intangible assets are valued at acquisition cost. Intangible assets with finite useful lives are amortised on a straight-line basis over their useful lives of between three and 20 years. Impairment losses are recognised where necessary. Internally generated intangible assets are not capitalised.

Advance payments are stated at their nominal amount.

Property, plant and equipment are stated at acquisition or manufacturing cost, less accumulated scheduled depreciation and impairment losses. Manufacturing cost includes direct material and production costs and an appropriate proportion of material and production overheads (including production-related depreciation). General administrative expenses, voluntary social expenses and company pension expenses are not included in manufacturing cost.

Property, plant and equipment are depreciated as a general rule on a straight-line basis. The reducing balance method is still also applied in specific cases. Items acquired during the year are depreciated on a time-apportioned basis. Impairment losses are recorded when the decline in value of an asset is considered to be of a lasting nature. If the reasons for impairment no longer exist, impairment losses previously recorded are reversed, at a maximum up to their amortised acquisition or manufacturing cost. For simplification purposes, assets with an acquisition or manufacturing cost of up to € 800 are recognised directly as an expense in the year of purchase/construction. Assets with an acquisition or manufacturing cost exceeding € 800 that are capable of being used separately are accounted for as a general rule in accordance with the principle of individual valuation. Assets under construction are stated at their nominal amount.

The following table shows the overarching ranges of useful lives applied as well as detailed useful lives for significant selected categories, all of which are subject to regular review.

In years	
Factory and office buildings, residential buildings, fixed installations in buildings and outside facilities	8 to 50
Road, parking areas, footpaths, other outdoor surfaces	14
Factory buildings (solid construction)	33
Office buildings (solid construction)	40
Plant and machinery	3 to 30
Special-purpose machines and transfer lines for series production	7
Assembly machines / equipment	10
Conveyor systems	12
Other equipment, factory and office equipment	2 to 25
Office machines and equipment	3 to 5
Vehicles for internal transport (excluding rail vehicles)	7
Workshop equipment and facilities	8

For plant and equipment used in multiple-shift operations, depreciation rates are increased to account for the additional utilisation.

Investments in subsidiaries and participations are stated at cost or, if lower, at their fair value. Impairment losses are recognised for both permanent and temporary reductions in value. If the reasons for impairment no longer exist, impairment losses previously recorded are reversed, at a maximum up to the level of original cost.

The composition of and changes in long-lived assets are presented in the Analysis of Changes in Tangible, Intangible and Investment Assets.

Inventories of raw materials, supplies and goods for resale are stated at the lower of cost and net realisable value (based on procurement market prices). Direct material and production costs

and an appropriate proportion of material and production overheads (including production-related depreciation) are taken into account in the measurement of unfinished and finished goods. General administrative expenses, voluntary social expenses and company pension expenses are not included in manufacturing cost. Write-downs are made to cover risks arising from slow-moving items or reduced saleability. Inventories include advance payments made for raw materials and supplies as well as goods for resale. Advance payments are reported at their nominal amount.

Receivables and other assets are stated at the lower of their nominal value or net realisable value. Receivables whose collectability is associated with identifiable risks are written down appropriately; uncollectible receivables are written off.

Investments in current marketable securities are measured at cost or, if lower, at their fair value at the end of the reporting period. Fair value corresponds to the market price.

Cash and cash equivalents are stated at their nominal value.

Prepaid expenses relate to amounts disbursed before the balance sheet date, which represent expense for a specific period after the end of the reporting period.

Subscribed capital is stated at its nominal amount.

In order to meet obligations relating to pension plans, certain assets are managed on a trustee basis by BMW Trust e.V., Munich, in conjunction with Contractual Trust Arrangements (CTA). These assets are measured at their fair value, based on the market values of the corresponding fund management companies at the end of the reporting period. Designated plan assets are offset against the related obligations. A provision is recognised when obligations exceed assets. When assets exceed obligations, the surplus is reported in the balance sheet in the line item "Surplus of pension and similar plan assets over liabilities".

Pension obligations are measured in accordance with the projected unit credit method and discounted using an average market interest rate for the past ten years, which corresponds to their

remaining term. The calculation is based on independent actuarial valuations which take into account the relevant biometric factors. The difference in the carrying amount of the provision based on using the average market interest rate for the past ten financial years and that for the past seven financial years is disclosed in the notes to the financial statements. New accounting guidelines relating to the probability of paying pension benefits to surviving dependents have been applied that require a more precise assessment of pension obligations. The provisions for long-service awards and for pre-retirement part-time work arrangements are also measured using the projected unit credit method. Income or expenses arising on assets offset against liabilities, from the unwinding of discounting and from the effect of changes in the discount rate are presented as part of the financial result. Changes in the fair value of designated plan assets held to meet securities-linked obligations are also reported as part of the financial result. All other components of pension expense are included in the income statement under costs by function.

Tax provisions are calculated in accordance with the principle of reasonable management judgement.

Other provisions are recognised to take account of all identified risks. Provisions are measured at their expected settlement amount. In the case of non-current provisions, amounts are discounted using the average market interest rate – calculated and published by the Deutsche Bundesbank – which corresponds to the remaining term of the provision.

The recognition and measurement of provisions for warranty obligations and product guarantees (statutory, contractual and voluntary) involves estimations. These provisions are recognised as a general rule when the risks and rewards of ownership of the goods are transferred to the BMW Group's sales companies, dealerships or retail customers. In order to determine the level of the provision, various factors are taken into consideration, including current estimations based on past experience with the nature and amount of claims relating to vehicles delivered. The future level of potential repair costs (comprising materials and labour) as well as price increases per product are also taken into account. In addition, the provision for warranty obligations and product

guarantees also takes into account warranty-related events such as vehicle recalls with effect from the date on which the associated resolution is passed. Provisions for statutory and non-statutory warranty obligations as well as product guarantees are adjusted regularly to take account of new circumstances, and the impact thereof is recognised in the income statement. Expected reimbursement claims are estimated and offset against provisions for statutory and non-statutory warranty obligations and product guarantees.

Provisions for pre-retirement part-time working arrangements are measured at their expected settlement amount, discounted using the average market interest rate – calculated and published by the Deutsche Bundesbank – which corresponds to the remaining term of the obligations.

BMW AG assumes some of the residual value obligations arising at the level of BMW Group Financial Services entities in connection with the remarketing of vehicles and recognises provisions accordingly. For the purpose of measuring the obligations arising from these arrangements, the contractual residual value and the expected residual value are compared. The computation of expected residual values also takes account of publicly available assessments of independent institutes as well as in-house forecasts.

Liabilities are stated at their expected settlement amount at the balance sheet date.

The option of offsetting receivables from and payables to subsidiaries and companies in which an investment is held is not exercised.

Foreign currency receivables and payables are translated using the mid-spot exchange rate applicable at transaction date. Period-end exchange rate gains are only recorded for receivables and payables with a remaining term of up to one year. Unrealised losses resulting from changes in exchange rates are recognised by restating the foreign currency amount in the balance sheet to the closing rate.

BMW AG uses derivative financial instruments to hedge interest rate, currency and commodity price risks arising in conjunction with operating activities as well as the resulting financing requirements. Where there is a direct hedging relationship, the derivative financial instruments are aggregated together with recognised assets or liabilities and/or with forecast transactions into valuation units. Items denominated in foreign currency are accounted for using the net hedge presentation method (Einfrüerungsmethode), translated using the relevant hedging rate.

BMW AG invoices affiliated sales companies that are based outside the eurozone in the relevant local currency. The resulting currency exposures are hedged by derivative currency instruments, and accounted for as portfolio hedges within valuation units. The hedged items relate to highly probable forecast transactions that will be subsequently invoiced in a foreign currency.

The high probability of occurrence of these transactions is based on past experience and production planning. BMW AG has elected to apply the net hedge presentation method for these hedging relationships.

Micro hedges are designated for currency derivatives used to hedge back-to-back derivative financial instruments with subsidiaries as well as for interest rate derivatives used to hedge financial receivables and liabilities. BMW AG has elected to apply the net hedge presentation method for these hedging relationships.

BMW AG negotiates contracts for the purchase of raw materials across the Group. The raw materials price risk resulting from the purchase of raw materials for production companies is borne either directly or indirectly by BMW AG. BMW AG enters into commodity derivatives to hedge these risks. These derivatives are accounted for as portfolio hedges within valuation units. The hedged items relate to highly probable forecast transactions. The high probability of occurrence of these transactions is based on past experience and production planning. BMW AG has elected to apply the net hedge presentation method for these hedging relationships.

Since the principal features of the transactions included in a valuation unit are matched to a large extent, changes in fair values or cash flows generally offset each other. Hedging is in place for the whole term of the hedged item. Effectiveness is ensured as a general rule by the use of a critical term match. The effectiveness of the valuation units is measured for currency and raw materials risks on the basis of regression analysis.

The Dollar-Offset method is used to calculate the absolute amounts attributable to non-validity and ineffectiveness. Realised gains and losses arising on valuation units created for back-to-back derivative financial instruments entered into with subsidiaries and banks are presented in other operating income/expenses on a net basis.

If there is no hedging relationship, or if the hedging relationship is deemed to be insufficient, pending losses are recognised with income statement effect.

Deferred income relates to amounts received before the balance sheet date, which represent income for a specific period after the end of the reporting period. This also includes revenues billed for services which are rendered after the end of the reporting period. Revenues from sales with multiple components are analysed into the various performance components on the basis of fair values which can be determined objectively and reliably.

Deferred taxes are calculated for temporary differences between the tax base and accounting carrying amounts of assets, liabilities and deferred/prepaid items. Deferred taxes are measured based on the income tax rates that will apply at the time the temporary differences are expected to reverse. The currently applicable uniform combined tax rate of 30.8% is therefore no longer being applied. Instead, the future tax rates resulting from the Act on an Immediate Tax Investment Programme to Strengthen Germany as a Business Location have been applied, taking into account the gradual reduction of corporation tax rates with effect from the 2028 assessment period – from the current 15% to 10% by 2032. The rates for the solidarity surcharge and municipal trade tax remain unaffected.

By contrast, in the case of temporary differences arising on assets, liabilities and deferred/prepaid items of partnership entities, in which BMW AG participates in the capacity of a shareholder, deferred taxes are measured on the basis of the income tax rates applicable at the time of their expected reversal. These tax rates comprise the applicable corporation tax rate and the solidarity surcharge. In the year under report, the BMW AG tax group has a surplus of deferred tax assets over deferred tax liabilities, mainly as a result of temporary differences between the tax base and accounting carrying amounts of provisions for pensions and similar obligations (before offset against designated plan assets), other provisions and property, plant and equipment. BMW AG, as head of the German tax group, has elected not to recognise the surplus amount of deferred tax assets.

The share-based remuneration programmes for Board of Management members and senior heads of department entitle BMW AG to elect whether to settle its commitments either in cash or with BMW AG ordinary shares. Based on the decision to settle in cash, the two share-based programmes are accounted for as cash-settled share-based transactions. Share-based programmes expected to be settled in cash are revalued to their fair value at each balance sheet date between the grant date and the settlement date and on the settlement date itself. The expense for such programmes is recognised in the income statement (as personnel expense) over the vesting period of the options and in the balance sheet as a provision. Further information regarding the two share-based programmes is provided in [note \[42\]](#) to the Group Financial Statements (part of the BMW Group Report 2025).

ANALYSIS OF CHANGES IN TANGIBLE, INTANGIBLE AND INVESTMENT ASSETS

* Previous year's figures adjusted (due to a shift between acquisition cost and depreciation following the derecognition of a building from 1966 with a Section 6b reserve amounting to € 8 million).

NOTES TO THE BALANCE SHEET

01 Intangible assets

Intangible assets comprise mainly usage rights, purchased software, franchises and licenses. Scheduled amortisation in the year under report totalled € 491 million (2024: € 503 million). Advance payments for intangible assets amounted to € 36 million (2024: € 54 million).

02 Property, plant and equipment

Additions to property, plant and equipment relate primarily to infrastructure improvements and product-related investments in plant and machinery as well as assets under construction. Scheduled depreciation in the year under report totalled € 2,555 million (2024: € 2,263 million).

03 Investments

BMW AG holds an investment in SGL Carbon SE, Wiesbaden. In the financial year under report, the investment was written down by € 19 million (2024: € 56 million) to its lower fair value as a result of temporary impairment.

04 Inventories

in € million	2025	2024
Raw materials and supplies	1,510	1,738
Work in progress, unbilled contracts	557	634
Finished goods and goods for resale	4,982	4,951
Prepayments	247	443
Inventories	7,296	7,766

05 Receivables and other assets

in € million	2025	2024
Trade receivables	1,164	1,005
Receivables from subsidiaries	15,650	13,546
Other receivables and other assets	5,485	3,845
Receivables from other companies in which an investment is held	31	12
Other assets	5,454	3,833
thereof due later than one year	182	54
Receivables and other assets	22,299	18,396

Receivables from subsidiaries comprise trade receivables amounting to € 7,279 million (2024: € 6,579 million) and financial receivables amounting to € 8,371 million (2024: € 6,967 million).

Other assets include primarily tax receivables as well as receivables arising from buyback arrangements.

Unless stated otherwise, receivables and other assets are due within one year.

06 Marketable securities

Marketable securities relate to one special investment fund and to money market funds.

BMW AG holds all of the shares of the special investment fund. The fund is not subject to any restrictions in terms of the daily redemption amount. The acquisition cost for the shares in the special investment fund amounted to € 0 million (2024: € 810 million). The result for the financial year includes gains arising on the sale of marketable securities amounting to € 125 million (2024: € 143 million). No new shares in the special investment fund were acquired during the financial year.

The following table shows the acquisition cost and fair value of investments held by the special investment fund at the end of the reporting period:

in € million	Acquisition cost		Fair value	
	2025	2024	2025	2024
Fixed-income securities	-	892	-	908
Cash and cash equivalents	-	12	-	12
Other marketable securities	-	2	-	2
Receivables and payables	-	8	-	8
Derivative instruments	-	-	-	-7
Special investment fund	-	914	-	923

07 Cash and cash equivalents

Cash and cash equivalents comprise cash at bank and in hand. Cash at bank includes € 2 million (2024: € 2 million) held by affiliated companies.

08 Prepaid expenses

Prepaid expenses include amounts paid in advance for services to be performed in future periods.

09 Subscribed capital and capital reserves

in € million	2025	2024
Subscribed capital	616	639
Treasury shares	- 9	- 17
Capital reserves	2,473	2,450

At the Annual General Meeting of BMW AG held on 11 May 2022, the shareholders authorised the Board of Management to acquire treasury shares (ordinary and/or preferred shares) via the stock exchange until 10 May 2027 up to a maximum of 10% of the share capital in place at the date of the resolution, or – if lower – the share capital in place at the date of the respective exercise of the authorisation. The Board of Management was authorised, with the approval of the Supervisory Board, to redeem treasury shares without further resolution by the Annual General Meeting, to use them for the purposes of an employee share programme or, in connection with business combinations or acquisitions, to offer them in exchange for non-cash contributions.

In conjunction with this authorisation, on 3 May 2023, the Board of Management approved a second share buyback programme via the stock exchange. The second share buyback programme was started in July 2023 and completed on 3 April 2025. Under this programme, a total of 18,660,741 ordinary shares were bought back via the stock exchange up to 3 April 2025 at a total acquisition price of € 1,650 million and an average price of € 88.42 per share. The repurchased ordinary shares correspond

to € 18,660,741 or 2.92% of share capital prior to the redemption of the shares and the reduction of share capital.

Up to 3 April 2025, a total of 4,244,903 preferred shares were bought back via the stock exchange under the second share buyback programme at a total acquisition price of € 350 million and an average price of € 82.45 per share. The repurchased preferred shares correspond to € 4,244,903 or 0.66% of share capital prior to the redemption of the shares and the reduction of share capital.

Based on the authorisation granted by the Annual General Meeting on 11 May 2022, the Board of Management of BMW AG resolved on and with effect from 24 June 2025 to redeem the 18,660,741 ordinary shares and 4,244,903 preferred shares – each with a nominal value of € 1 – that had been acquired by BMW AG as part of the second share buyback programme, thereby reducing the Company's share capital by € 22,905,644. This corresponds to around 3.59% of share capital prior to the redemption of the shares and the reduction of share capital.

Following the reduction, BMW AG's issued share capital amounts to € 615,810,431, divided into 561,134,926 ordinary shares, each with a par value of € 1, and 54,675,505 non-voting preferred shares, each with a par value of € 1. All of the Company's shares are issued to bearer. Preferred shares bear an additional dividend of € 0.02 per share. The reduction amount of € 22,905,644 was reclassified to capital reserves.

At the Annual General Meeting of BMW AG held on 14 May 2025, the shareholders again authorised the Board of Management to acquire treasury shares (ordinary and/or preferred shares) via the stock exchange up to a maximum of 10% of the share capital in place at the date of the resolution, or – if lower – the share capital in place at the date of the respective exercise of the authorisation. The Board of Management was authorised, with the approval of the Supervisory Board, to redeem treasury shares without further resolution by the Annual General Meeting, to use them for the purposes of an employee share programme or, in connection with business combinations or acquisitions, to offer them in exchange for non-cash

contributions. This buyback authorisation remains valid until 13 May 2030 and replaces the authorisation to acquire treasury shares granted on 11 May 2022.

In conjunction with this authorisation, on 20 May 2025, the Board of Management approved a third share buyback programme via the stock exchange. Under this programme, ordinary shares up to a maximum of € 1,650 million and preferred shares up to a maximum of € 350 million will be acquired. The third share buyback programme started on 21 May 2025 and will be completed by 30 April 2027 at the latest. The share buyback programme primarily serves the purpose of redeeming shares with a corresponding reduction in share capital. In addition, it is also to be used for the transfer of shares to employees of BMW AG or a Group company in conjunction with an employee share programme.

Up to 31 December 2025, 7,498,153 ordinary shares had been bought back on the stock exchange as part of the first tranche of the third buyback programme at a total acquisition price of € 615 million and an average price of € 82.02 per share. The repurchased ordinary shares correspond to € 7,498,153 or 1.22% of BMW AG's share capital. Of these, 6,908,833 ordinary shares are held by BMW AG as treasury shares at the end of the reporting period. These ordinary shares correspond to € 6,908,833 or 1.12% of BMW AG's share capital.

Up to 31 December 2025, 1,773,313 preferred shares had been bought back on the stock exchange as part of the first tranche of the third buyback programme at a total acquisition price of € 135 million and an average price of € 76.13 per share. The repurchased preferred shares represent € 1,773,313 or 0.29% of BMW AG's share capital. The shares concerned are held by BMW AG as treasury shares at the end of the reporting period.

A chronological overview of the buyback of shares of ordinary and preferred shares is provided in Appendix 2 of the notes to the financial statements.

On 26 September 2025, the Board of Management approved an employee share programme with a subscription period running from 21 October 2025 to 6 November 2025, enabling employees to participate directly in the Company. Based on the applications received from eligible employees, 589,320 treasury ordinary shares with a nominal value of € 589,320 were sold to employees at a preferential price of € 67.99 per share. This corresponds to 0.10% of BMW AG's share capital. For the purpose of the employee share programme, treasury ordinary shares previously purchased on the stock exchange in conjunction with the third share buy-back programme were utilised.

On 16 December 2025, the Board of Management resolved to propose to the Annual General Meeting of BMW AG to be held on 13 May 2026 as well as to a separate Special Meeting of the Preferred Shareholders to be held on the same day that all preferred shares be converted into ordinary shares at a ratio of 1:1. It is planned to carry out this conversion by way of an amendment to the Articles of Incorporation without any additional payment obligation on the part of the preferred shareholders.

10 Revenue reserves

in € million	2025	2024
Statutory reserves	1	1
Other revenue reserves	10,999	10,925
Balance brought forward	10,925	11,045
Share buyback	- 1,209	- 988
Transfer from unappropriated profit previous year	28	21
Transfer from net profit	1,255	847
Revenue reserves	11,000	10,926

The line item 'Share buyback' includes the negative impact of € 1,234 million (2024: € 988 million) resulting from the buyback of treasury shares, the positive impact of € 48 million (2024: € 0 million) relating to the issue of treasury shares to employees and the positive impact of € 23 million (2024: € 0 million) resulting from the transfer to capital reserves in accordance with § 237 (5) of the German Stock Corporation Act (AktG).

The amount not available for distribution at 31 December 2025 was € 831 million (2024: € 1,440 million). This figure results exclusively from the fair value measurement of assets held to service obligations for pensions.

The negative difference existing at the end of the financial year amounting to € 224 million (2024: € 95 million) relating to the carrying amount of the pension provision based on a ten-year and a seven-year average interest rate does not give rise to any restriction on distribution.

11 Registered profit-sharing certificates

Employees are entitled to subscribe to ordinary shares (preferred shares until 2022) under the existing Employee Share Programme in order to enable them to accumulate capital. These arrangements replaced the programme in place up to 1989, under which employees were entitled to subscribe to registered profit-sharing certificates, with the level of the profit share based on the level of the dividend. A total of 454,342 registered profit-sharing certificates remained in place at 31 December 2025 (2024: 472,539 registered profit-sharing certificates).

12 Provisions

in € million	2025	2024
Pension provisions	2,153	1,848
Other provisions	9,897	10,660
Tax provisions	538	450
Sundry other provisions	9,359	10,210
thereof provisions for statutory and non-statutory warranty obligations and product guarantees	3,508	4,144
thereof provisions for residual value subsidy obligations	1,374	1,350
Provisions	12,050	12,508

BMW AG provides pension benefits to its employees in various forms. BMW AG's pension obligations include defined benefit obligations, for which benefits are determined either by multiplying a fixed amount by the number of years of service or on the basis of an employee's final salary. The defined benefit plans were closed to new entrants in 2014.

An additional pension plan is also in place – covered by trust assets – which pays defined benefit amounts that are predominantly dependent on the contributions made by the Company, the investment income earned and a guaranteed minimum rate of interest.

BMW AG also offers employees the option of participating in a voluntary deferred remuneration retirement plan.

As in the previous year, the measurement of obligations for pension plans and pre-retirement part-time working arrangements is based on the assumptions set out in the biometric tables of Prof. Dr. Klaus Heubeck (2018 G), with invalidity rates reduced by 70%. In addition, the following assumptions are applied:

in %	2025	2024
Discount factor for pension plans	2.06	1.90
Discount factor for pre-retirement part-time working arrangements	1.86	1.49
Future salary increases	2.75	3.25
Future pension increases	2.02	2.01
Social security contribution ceiling trend	3.22	3.40

The discount rate used to discount pension obligations corresponds to the average market interest rate for the past ten financial years for an assumed maturity term of 15 years, as calculated and published by the Deutsche Bundesbank. The difference in the carrying amount of the pension provision as a result of using an average market interest rate for ten rather than seven years is disclosed in the note on revenue reserves [note \[10\]](#).

Unchanged from the previous year, a career trend component that is plan-dependent and lies within a range of 0.25 to 0.50% is also taken into account in the measurement of pension obligations.

The provision for pensions amounting to € 2,153 million (2024: € 1,848 million) can be summarised as follows:

in € million	2025	2024
Fair value of assets held to cover pension obligations	13,313	13,390
Present value of defined benefit obligations	15,466	15,238
Pension provisions	2,153	1,848

Acquisition cost of the designated plan assets for pension obligations amounted to € 11,163 million (2024: € 10,984 million).

Tax provisions comprise mainly expected income tax payments relating to the current year and previous years as well as payments for ancillary tax-related expenses.

Other provisions comprise mainly obligations for statutory and non-statutory warranty obligations and product guarantees, personnel-related expenses, selling activities, litigation and liability risks.

13 Liabilities

in € million	2025				2024			
	Total	thereof with a remaining term of			Total	thereof with a remaining term of		
		up to one year	1 to 5 years	more than 5 years		up to one year	1 to 5 years	more than 5 years
Liabilities to banks	-	-	-	-	-	-	-	-

Payables to entities in which a participation is held	80	80	-	-	125	125	-	-
Liabilities to BMW Unterstützungsverein e.V.	3	-	-	3	3	-	-	3
Sundry other liabilities	301	294	7	-	1,536	1,090	446	-
thereof for social security	52	52	-	-	48	48	-	-
thereof for taxes	1	1	-	-	16	16	-	-
Liabilities	36,043	35,560	480	3	32,635	32,179	453	3

Liabilities to subsidiaries comprise financial liabilities amounting to € 23,794 million (2024: € 19,713 million) and trade payables amounting to € 4,564 million (2024: € 4,236 million). In the financial year, liabilities for supplier development costs (€ 1,439 million) are reported as trade payables in order to reflect the economic substance of the contractual relationship. In the previous year, these liabilities were reported as other liabilities (€ 1,048 million).

14 Deferred income

Deferred income includes revenue received for services to be performed in future accounting periods, including € 4,754 million (2024: € 4,647 million) deferred for work still to be performed in conjunction with service and maintenance contracts.

NOTES TO THE INCOME STATEMENT

15 Revenues

Automobiles	83,133	88,942
Motorcycles	2,245	2,267
Other revenues	13,427	14,108
Revenues	98,805	105,317

in € million	2025	2024
Europe	49,781	48,737
thereof Germany	17,552	17,021
America	25,987	27,530
thereof USA	21,807	23,068
Asia	19,721	25,815
thereof China	9,451	14,541
Other regions	3,316	3,235
Revenues by region	98,805	105,317

16 Cost of sales

Cost of sales comprises mainly production costs of materials, bought-in goods and services, personnel expenses, depreciation and amortisation of assets, production-related rent and leasing expenses as well as expenses for statutory and non-statutory warranties, product guarantees and service contracts.

17 Other operating income

Other operating income totalling € 2,849 million (2024: € 2,062 million) includes mainly realised exchange gains and income from the reversal of provisions.

Other operating income relating to prior periods amounted to € 942 million (2024: € 731 million) and resulted mainly from the reversal of provisions.

Other operating income recorded in the financial year includes € 111 million of government subsidies relating to hydrogen drive technologies, of which € 63 million represents prior period income.

The application of new accounting rules for pension liabilities in connection with the probability of paying pension benefits to surviving dependents resulted in prior-period income amounting to € 269 million in the reporting year.

Gains resulting from the measurement of foreign currency items using closing exchange rates totalled € 299 million (2024: € 187 million).

18 Other operating expenses

Other operating expenses amounted to € 2,262 million (2024: € 1,953 million) and include in particular expenses arising on financial transactions as well as additions to other provisions.

Other operating expenses relating to prior periods amounted to € 109 million (2024: € 95 million) and included mainly expenses for sales market promotional measures as well as losses arising from the disposal of tangible, intangible and investment assets.

Losses resulting from the measurement of foreign currency items using closing exchange rates totalled € 247 million (2024: € 147 million).

19 Result on investments

in € million	2025	2024
Income from profit transfer agreements	5,431	3,628
Income from investments	72	289
thereof from subsidiaries	72	289
Result on investments	5,503	3,917

Income from profit transfer agreements related mainly to BMW INTEC Beteiligungs GmbH, Munich, amounting to € 4,529 million (2024: € 2,677 million), BMW Bank, Munich, amounting to € 596 million (2024: € 748 million) and BMW M GmbH Gesellschaft für individuelle Automobile, Munich, amounting to € 194 million (2024: € 175 million).

20 Financial result

in € million	2025	2024
Other interest and similar income	404	698
thereof from subsidiaries	125	158
thereof financial income from pension and long-term personnel-related provisions	-	185
Impairment losses on non-current financial assets	-19	-57
Interest and similar expenses	-1,386	-1,019
thereof to subsidiaries	-726	-929
thereof financial expense from pension and long-term personnel-related provisions	-558	-
thereof expense from unwinding the discounting of liabilities and other provisions	-47	-33
Financial result	-1,001	-378

Financing expense (2024: financing income) relating to pension and long-term personnel expense-related provisions results from netting the following items:

in € million	2025	2024
Expense (2024: income) from fund assets offset against liabilities	-495	323
Expense from unwinding discounted pension and long-term personnel expense-related provisions and effect of changes in the discount factor	-63	-138
Financial expense (2024: income) from pension and long-term personnel-related provisions	-558	185

21 Income taxes

The expense for income taxes results primarily from the current tax calculation for the financial year and includes a tax expense of € 9 million (2024: € 9 million) relating to the Minimum Tax Act. This includes prior year tax expenses amounting to € 92 million (2024: prior year tax income of € 115 million) relating among other things to tax audits as well as ancillary tax-related items.

22 Transfer to revenue reserves

An amount of € 1,255 million (2024: € 847 million) was transferred from net profit for the year to other revenue reserves.

23 Unappropriated profit

The Board of Management and the Supervisory Board propose that the unappropriated profit of BMW AG for the financial year amounting to € 2,672,422,497.84 be utilised to pay a dividend of € 4.42 for each preferred share entitled to receive a dividend, and a dividend of € 4.40 for each ordinary share entitled to receive a dividend, and that the remaining amount be transferred to other revenue reserves. Based on the number of shares at 31 December 2025 entitled to receive a dividend, the proposed dividend represents a total payout of € 2,672 million.

The proposal for the appropriation of profit takes into account the 6,908,833 ordinary shares and the 1,773,313 preferred shares held directly or indirectly by the Company as treasury shares at 31 December 2025. In accordance with § 71b of the German Stock Corporation Act (AktG), these shares are not entitled to receive a dividend.

The number of shares entitled to receive a dividend may change prior to the Annual General Meeting. In this case, based on an unchanged distribution per ordinary and preferred share entitled to receive a dividend, a correspondingly amended resolution concerning the appropriation of profit will be submitted to the Annual General Meeting.

OTHER DISCLOSURES

24 Cost of materials

in € million	2025	2024
Cost of raw materials and goods for resale	72,185	77,419
Cost of purchased services	4,280	4,720
Cost of materials	76,465	82,139

25 Personnel expense

in € million	2025	2024
Wages and salaries	8,802	8,406
Social security, pension and welfare costs	1,513	1,420
thereof pension costs	115	147
Personnel expense	10,316	9,826

Personnel expense does not include financing income relating to pension and long-term personnel provisions amounting to € 558 million (2024: financing income of € 185 million), as disclosed in [note \[20\]](#).

	2025	2024
Head office and Munich plant	41,476	41,512

Branches	4,816	4,843
Number of employees	86,614	86,895
Trainees and interns	5,634	5,680
Average workforce during the year	92,248	92,575

* Including the workforce of the BMW Group Motorcycles segment at the Munich location.

26 Fee expense of the external auditor

Services provided during the financial year by the Group auditor PricewaterhouseCoopers GmbH Wirtschaftsprüfungs-gesellschaft, Frankfurt am Main, Munich branch, on behalf of BMW AG and subsidiaries under its control relate to the audit of financial statements, other attestation services as well as other services.

The audit of financial statements comprises mainly the audit of the Group Financial Statements and the separate financial statements of BMW AG and its German subsidiaries, and all work related thereto, including the review of the Interim Group Financial Statements.

Other attestation services include mainly project-related audits, comfort letters and statutorily prescribed, contractually agreed or voluntarily commissioned attestation work. Other services relate to transaction-related advisory projects.

The fee expense of the external auditor is not reported here due to the exempting group clause pursuant to § 285 No. 17 of the German Commercial Code (HGB).

27 Contingent liabilities

in € million	2025	2024
Guarantees for bonds under the AMTN / EMTN programme	30,052	27,416
thereof in favour of subsidiaries	30,052	27,416
Guarantees for commercial paper	3,483	4,133
thereof in favour of subsidiaries	3,483	4,133
Guarantees for other debt capital transactions	25,792	25,421
thereof in favour of subsidiaries	25,792	25,421
Other	15,063	17,061
of which to subsidiaries	14,970	16,984
Contingent liabilities	74,390	74,031

BMW AG is liable for the full extent and amount of customer deposits taken in by the subsidiary, BMW Bank GmbH, Munich, instead of the Deposit Protection Fund of the Association of German Banks (Einlagensicherungsfonds des Bundesverbands deutscher Banken e.V., Berlin), of which BMW Bank GmbH, Munich, is a member. The maximum liability per customer is capped at 8,75% of the equity capital of BMW Bank GmbH, Munich.

The above table does not include any amount relating to the declaration issued on behalf of BMW Bank GmbH, Munich, since it is not possible to determine a reliable value.

BMW AG has undertaken to make funds available to BMW Automotive Finance (China) Co. Ltd., Beijing, if required to ensure that the regulatory requirements for capital resources are met and to maintain liquidity in the event of payment difficulties. At the present time, BMW AG is unlikely to be called upon in this context.

Based on the information available to BMW AG at the date of the preparation of the financial statements regarding the financial condition of the principal debtors, BMW AG considers that the obligations underlying the contingent liabilities shown above can be fulfilled by the relevant principal debtors. In the case of so-called double contingent liabilities, the potential risk of BMW AG being called upon is included only once within contingent liabilities.

BMW AG considers it unlikely that it will be called upon in conjunction with these contingent liabilities, as the underlying liabilities can probably be met.

28 Other financial commitments and off-balance-sheet transactions

Other financial commitments totalled € 1,962 million (2024: € 2,076 million) and comprise mainly obligations arising from rental and leasing contracts.

The total amount of these obligations can be analysed by maturity as follows:

in € million	2025	2024
due within one year	380	361
due between one and five years	939	965
due later than five years	643	750
Other financial commitments	1,962	2,076

Of these amounts, € 491 million (2024: € 539 million) relate to subsidiaries.

Capital expenditure commitments and long-term purchase commitments for inventories are at a normal level for the business.

For refinancing purposes, receivables with a total volume of € 26,927 million (2024: € 21,775 million) were sold to other Group companies during the financial year and the corresponding amounts received in cash by BMW AG.

In previous years, sale-and-lease-back transactions were concluded. No significant risks and rewards remain with BMW AG in conjunction with these transactions.

Buyback commitments amounting to € 2,825 million (2024: € 2,902 million) relate entirely to commitments given by BMW AG to financial services subsidiaries in conjunction with vehicle sales and vehicle leasing. Of this amount, € 1,479 million (2024: € 1,765 million) falls due within one year.

BMW AG also acts as a cash pooling company for BMW Group entities and provides liquid funds to them on usual market terms.

29 Related party transactions

Transactions with related parties are all conducted at market conditions.

30 Derivative financial instruments

in € million	Nominal volume		Fair values	
	2025	2024	2025	2024
Currency-related contracts				
Forward currency contracts	40,253	40,420	319	- 228
thereof positive fair values			801	425
thereof negative fair values			- 482	- 653
Purchasing-related instruments				
Commodity derivatives	7,624	6,145	953	- 876
thereof positive fair values			1,203	162
thereof negative fair values			- 251	- 1,038
Derivative financial instruments	47,877	46,565	1,272	- 1,104

Provisions amounting to € 192 million (2024: € 167 million) were recognised in the financial year under report for negative fair values of derivative instruments not designated as part of a hedging relationship and for the ineffective portions of valuation units.

The nominal volumes of derivative financial transactions shown above are reported on a gross basis, derived from the absolute purchase and sale amounts or in accordance with the contract values of the hedged items. The fair values of currency instruments shown are measured on the basis of market information available at the balance sheet date or using appropriate measurement techniques e.g. the discounted cash flow method. Options are measured based on quoted prices or option price models using appropriate market data.

The fair values of commodity hedging contracts are generally determined on the basis of current reference prices, as adjusted for forward premium and discount amounts.

The fair values of derivative financial instruments that are derived from their relevant nominal values do not include any offsetting change in the fair value of the hedged items.

Amounts are discounted at 31 December 2025 on the basis of the following interest rates:

in %	EUR	USD	GBP	JPY	CNY
Interest rate for six months	1.92	3.55	3.62	0.78	1.86
Interest rate for one year	1.89	3.37	3.48	0.90	1.58
Interest rate for five years	2.27	3.39	3.60	1.50	1.71
Interest rate for ten years	2.65	3.75	3.96	1.89	1.85

31 Valuation units

BMW AG is exposed to risks from changes in exchange rates, raw material prices and interest rates arising in connection with recognised assets and liabilities as well as forecasted transactions. These risks are hedged predominantly by derivative financial instruments and assigned to valuation units.

At 31 December 2025, BMW AG held currency derivative instruments with terms of up to 60 months (2024: 72 months). Foreign currency derivatives are used to hedge highly probable forecasted transactions from trade payables and trade receivables that will be denominated in a foreign currency. Derivative financial instruments also include back-to-back contracts entered into with subsidiaries and banks.

Commodity derivative instruments with terms of up to 60 months were in place at the end of the reporting period (2024: 51 months). Changes in the price of planned raw material

transactions have an impact on BMW AG's production costs. Based on highly probable forecasted purchasing volumes and in combination with physical deliveries and cash settlement, hedging strategies have therefore been put in place as part of the system for managing raw materials prices. BMW AG did not hold any derivative interest rate instruments at the end of the financial year under report.

The amounts disclosed for volumes hedged relate to the carrying amounts of hedged assets and liabilities, the nominal amount of forecast transactions and the fair value of hedged pending contracts for the duration of the valuation units. The figures disclosed for the amount of the hedged item refer to the non-recognition of a provision for onerous contracts with negative fair values. In accordance with the net hedge presentation method, no write-downs on assets or upward revaluations of liabilities are recognised.

in € million	Volume hedged		Amount of risk hedged	
	2025	2024	2025	2024
Currency risk hedges				
Forecast transactions	29,351	24,524	279	518
Executory contracts	26	14	26	15
Commodity hedges				
Forecast transactions	8,313	6,733	228	1,130
Valuation units	37,690	31,271	533	1,663

32 Total remuneration of the Board of Management and the Supervisory Board

The total remuneration of the current members of the Board of Management for the financial year amounted to € 23 million (2024: € 19 million). As part of a coordinated succession plan, Oliver Zipse will step down from the Board of Management by mutual agreement at the end of 13 May 2026. This will not involve any premature settlement and payment of remuneration components.

The remuneration of former members of the Board of Management and their dependants amounted to € 16 million (2024: € 13 million). The amount reported also includes remuneration accrued in connection with the departure of Frank Weber. Some of these amounts have not yet been paid out.

Pension obligations to former members of the Board of Management and their surviving dependants are covered by pension provisions amounting to € 97 million (2024: € 104 million), computed in accordance with the German Commercial code (HGB).

For the financial year, the members of the Supervisory Board will receive exclusively fixed remuneration totalling € 6 million (2024: € 6 million).

The remuneration system for members of the Supervisory Board does not include any share options, value appreciation rights comparable to share options or any other share-based remuneration components.

No advances and loans were granted by entities of the BMW Group to members of the Board of Management and the Supervisory Board in the financial year, nor were any contingent liabilities entered into on their behalf.

33 Disclosures pursuant to § 160 (1) no. 8 of the German Stock Corporation Act (AktG)

A number of shareholdings in the Company exist at 31 December 2025, which have been notified in accordance with § 33 (1) of the German Securities Trading Act (WpHG) and published with the following content in accordance with § 40 (1) WpHG:

Stefan Quandt informed us that on 16 February 2018 he held 25.83% (previously 25.83%) of the voting rights in BMW AG (corresponding to 155,485,833 voting rights), all of which arise from shares held directly and indirectly. 25.63% (corresponding to 154,300,215 voting rights) are attributable to him in accordance with § 34 WpHG. This includes 16.61% indirectly attributable to him via AQTON GmbH & Co. KG für Automobilwerte and 9.02% via AQTON SE.

Susanne Klatten informed us that on 15 February 2018 she held 20.94% (previously 12.75%) of the voting rights in BMW AG (corresponding to 126,068,819 voting rights), all of which arise from shares held directly and indirectly. 20.74% (corresponding to 124,883,201 voting rights) are attributable to her in accordance with § 34 WpHG.

BlackRock, Inc., Wilmington, Delaware, USA informed us that on 10 July 2025 it held 3.84% (previously 3.85%) of the voting rights in BMW AG. Of this, 3.19% was attributable to 17,885,668 indirectly held shares and 0.66% to instruments. All of the voting rights are attributable to BlackRock, Inc. in accordance with § 34 WpHG.

The above-mentioned voting rights correspond to the number of shares held at the time the notification was issued.

In addition, changes may have occurred subsequent to the dates stated, if such changes were not required to be reported to the Company. As the Company's shares are issued to bearer, the Company is generally aware of shareholding changes only if they are subject to mandatory notification rules.

34 Events after the end of the reporting period

On 20 February 2026, the US Supreme Court ruled that the International Emergency Economic Powers Act (IEEPA) does not provide a legal basis for imposing tariffs and that import duties imposed on this basis are invalid due to lack of legal authority. As a result, the US administration introduced a temporary 10% import duty on the basis of Section 122 of the Trade Act of 1974.

In view of the fact that the BMW Group in the USA is primarily affected by Section 232 tariffs, the Supreme Court ruling and the temporary 10% import duty do not have a significant impact on the results of operations, financial position or net assets of BMW AG.

Since 28 February, the situation in the Middle East has escalated significantly as a result of military conflicts. The escalation is increasing geopolitical tensions and leading to heightened uncertainty regarding further political and economic developments. Possible effects on supply chains, energy and commodity markets, international trade flows and thus on the results of operations, financial position or net assets of the BMW Group cannot be ruled out in the event of a prolonged conflict. The BMW AG is continuously monitoring and analysing the situation.

No other events have occurred after the balance sheet date with a particular significance for the results of operations, financial position or net assets of BMW AG.

35 Declaration with respect to the German Corporate Governance Code

The Board of Management and the Supervisory Board of Bayerische Motoren Werke Aktiengesellschaft have issued the prescribed Declaration of Compliance with the recommendations of the "Government Commission on the German Corporate Governance Code" required by § 161 of the German Stock Corporation Act (AktG). The declaration has been made permanently available to the public on the Company's website www.bmwgroup.com/.

APPENDIX 1: LIST OF INVESTMENTS AT 31 DECEMBER 2025

36 List of investments at 31 December 2025

The List of Investments pursuant to § 285 and § 313 HGB is presented below. Disclosures for equity and earnings and for investments are not made if they are of "minor significance" for the results of operations, financial position and net assets of BMW AG pursuant to § 286 (3) sentence 1 no. 1 HGB and § 313 (3) sentence 4 HGB. It is also shown in the list which subsidiaries apply the exemptions available in § 264 (3) and § 264b HGB with regard to the publication of annual financial statements and the drawing up of a management report and/or notes to the financial statements (footnotes 5 and 6). The Group Financial Statements of BMW AG serve as exempting consolidated financial statements for these companies.

¹ The amounts shown for German affiliated companies correspond to the annual financial statements drawn up in accordance with German accounting rules (HGB).

² The amounts shown for foreign affiliated companies correspond to the annual financial statements drawn up in accordance with uniform IFRS rules. Equity and earnings not denominated in euro are translated into euro using the closing exchange rate at the balance sheet date.

³ Profit and Loss Transfer Agreement with BMW AG.

⁴ Profit and Loss Transfer Agreement with a subsidiary of BMW AG.

⁵ Exemption from drawing up a management report applied in accordance with § 264 (3) and § 264b HGB.

⁶ Exemption from publishing financial statements applied in accordance with § 264 (3) and § 264b HGB.

⁷ These entities are neither consolidated nor accounted for using the equity method due to their overall immateriality for the Group Financial Statements.

⁸ The amounts shown for entities accounted for using the equity method and for proportionally consolidated entities correspond to the annual financial statements drawn up in accordance with uniform IFRS rules. Equity not denominated in euro is translated into euro using the closing exchange rate at the balance sheet date, earnings are translated using the average rate.

⁹ Control on basis of economic dependence.

¹⁰ 100% capital share due to commercial rounding (99.98%).

¹¹ BMW AG is the shareholder with unlimited liability.

APPENDIX 2: LIST OF SHARE BUYBACKS IN THE FINANCIAL YEARS 2023 TO 2025

37 Buyback of treasury shares in the financial years 2023 to 2025

The following section presents share buybacks of BMW AG in chronological order under the Share Buyback Programme 2 (which ran from 3 July 2023 to 3 April 2025) and Share Buyback Programme 3 (which runs from 21 May 2025 to 30 April 2027 at the latest) – separately for ordinary and preferred shares – in the financial years 2023 to 2025. The percentage share of subscribed capital refers to the Subscribed Capital in place at 31 December 2025.

Buyback of BMW AG Ordinary Shares

Day	Number of shares	Transaction price in € (without transaction costs)	Average transaction price in €	Share of subscribed capital in €	Share of subscribed capital in %

COMPOSITION OF THE BOARD OF MANAGEMENT AND SUPERVISORY BOARD

MEMBERS OF THE BOARD OF MANAGEMENT

OLIVER ZIPSE (b. 1964)

Member since 2015
Chairman (since 2019)

Mandates

— Fraunhofer-Gesellschaft zur Förderung der angewandten Forschung e. V.*, Deputy Chairman

JOCHEN GOLLER (b. 1966)

Member since 2023
Customer, Brands, Sales

Mandates

— Rolls-Royce Motor Cars Ltd.**, Chairman

ILKA HORSTMEIER (b. 1969)

Member since 2019
People and Real Estate,
Labour Relations Director

DR NICOLAI MARTIN (b. 1978)

Member since 1 June 2025
Purchasing and Supplier Network

WALTER MERTL (b. 1974)

Member since 2023
Finance

Mandates

— BMW Brilliance Automotive Ltd.***, Chairman

DR-ING MILAN NEDELJKOVIĆ (b. 1969)

Member since 2019
Production

Mandates

— BMW (South Africa) (Pty) Ltd.***, Chairman
— BMW Motoren GmbH**, Chairman

DR-ING JOACHIM POST (b. 1971)

Member since 2022
Development (since 1 June 2025)
Purchasing and Supplier Network (until 31 May 2025)

FRANK WEBER (b. 1966)

Member from 2020 until 31 May 2025
Development

General Counsel:

DR ANDREAS LIEPE

* Not listed on the stock exchange.

** BMW Group mandate.

*** Group mandate (other).

— Memberships on other mandatory supervisory boards.

— Memberships on comparable boards in Germany and abroad.

MEMBERS OF THE SUPERVISORY BOARD

DR NICOLAS PETER (b. 1962)

Member and Chairman since 14 May 2025, elected until the AGM 2029

Chairman of the Supervisory Board

Former Member of the Board of Management of BMW AG

Mandates

- KION Group AG (until 27 May 2025)
- BNP Paribas S.A. (since 13 May 2025)
- FORVIA SE (until 30 April 2025)

DR-ING DR-ING Eh NORBERT REITHOFER (b. 1956)

Member and Chairman from 2015 until 14 May 2025

Former Chairman of the Board of Management of BMW AG

DR MARTIN KIMMICH¹ (b. 1972)

Member since 2023, elected until the AGM 2029

Deputy Chairman of the Supervisory Board

Chairman of the General Works Council of BMW AG and the BMW AG Works Council Munich

STEFAN QUANDT (b. 1966)

Member since 1997, elected until the AGM 2028

Deputy Chairman of the Supervisory Board

Entrepreneur

Mandates

- DELTON Health AG^{***}, Chairman
- DELTON Technology SE^{***}, Chairman
- Frankfurter Allgemeine Zeitung GmbH^{*}
- AQTON SE^{***}, Chairman
- Entrust Corp.^{***}
- SOLARWATT GmbH^{***}

Note: Mr Quandt is the sole shareholder of DELTON Health AG, DELTON Technology SE, and AQTON SE. He indirectly holds all shares in SOLARWATT GmbH and an indirect majority interest in Entrust Corp.

STEFAN SCHMID¹ (b. 1965)

Member since 2007, elected until the AGM 2029

Deputy Chairman of the Supervisory Board

Chairman of the BMW AG Works Council Dingolfing

DR KURT BOCK (b. 1958)

Member since 2018, elected until the AGM 2027

Deputy Chairman of the Supervisory Board and

Chairman of the Audit Committee

Chairman of the Supervisory Board of BASF SE

Mandates

- BASF SE, Chairman

ULRICH BAUER¹ (b. 1964)

Member since 2024, elected until the AGM 2029

Member of the BMW AG Works Council Munich

INDEPENDENT AUDITOR'S REPORT

To Bayerische Motoren Werke Aktiengesellschaft, Munich

Report on the Audit of the Annual Financial Statements and of the Management Report

Audit Opinions

We have audited the annual financial statements of Bayerische Motoren Werke Aktiengesellschaft, Munich, which comprise the balance sheet as at 31 December 2025, and the income statement for the financial year from 1 January to 31 December 2025 and notes to the financial statements, including the presentation of the recognition and measurement policies. In addition, we have audited the management report of Bayerische Motoren Werke Aktiengesellschaft, which is combined with the group management report, for the financial year from 1 January to 31 December 2025. In accordance with the German legal requirements, we have not audited the content of those parts of the management report listed in the "Other Information" section of our auditor's report.

In our opinion, on the basis of the knowledge obtained in the audit,

- the accompanying annual financial statements comply, in all material respects, with the requirements of German commercial law and give a true and fair view of the assets, liabilities and financial position of the Company as at 31 December 2025 and of its financial performance for the financial year from 1 January to 31 December 2025 in compliance with German Legally Required Accounting Principles and
- the accompanying management report as a whole provides an appropriate view of the Company's position. In all material respects, this management report is consistent with the annual financial statements, complies with German legal requirements and appropriately presents the opportunities and risks of future development. Our audit opinion on the management report does not cover the content of those parts of the management report listed in the "Other Information" section of our auditor's report.

Pursuant to § [Article] 322 Abs. [paragraph] 3 Satz [sentence] 1 HGB [Handelsgesetzbuch: German Commercial Code], we declare that our audit has not led to any reservations relating to the legal compliance of the annual financial statements and of the management report.

Basis for the Audit Opinions

We conducted our audit of the annual financial statements and of the management report in accordance with § 317 HGB and the EU Audit Regulation (No. 537/2014, referred to subsequently as "EU Audit Regulation") in compliance with German Generally Accepted Standards for Financial Statement Audits promulgated by the Institut der Wirtschaftsprüfer [Institute of Public Auditors in Germany] (IDW). Our responsibilities under those requirements and principles are further described in the "Auditor's Responsibilities for the Audit of the Annual Financial Statements and of the Management Report" section of our auditor's report. We are independent of the Company in accordance with the requirements of European law and German commercial and professional law, and we have fulfilled our other German professional responsibilities in accordance with these requirements. In addition, in accordance with Article 10 (2) point (f) of the EU Audit Regulation, we declare that we have not provided non-audit services prohibited under Article 5 (1) of the EU Audit Regulation. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions on the annual financial statements and on the management report.

Key Audit Matters in the Audit of the Annual Financial Statements

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the annual financial statements for the financial year from 1 January to 31 December 2025. These matters were addressed in the context

of our audit of the annual financial statements as a whole, and in forming our audit opinion thereon; we do not provide a separate audit opinion on these matters.

In our view, the matters of most significance in our audit were as follows:

1/ Valuation of residual value risks

2/ Valuation of provisions for statutory and non-statutory warranty obligations and product guarantees

Our presentation of these key audit matters has been structured in each case as follows:

1/ Matter and issue

2/ Audit approach and findings

3/ Reference to further information

Hereinafter we present the key audit matters:

1/ Valuation of residual value risks

1/ BMW AG carries realization risks for leased products which are recognized by the affiliated companies of the segment "Financial Services" and partially assumes the residual value risks arising from this. Residual value risks are determined by comparing the contractually agreed residual value on a contract-by-contract basis with the expected residual value at the end of the customer contract. The other provisions recognized in the annual financial statements of BMW AG include provisions for residual value risks amounting to € 1,374 million as at 31 December 2025.

A key estimated value for the measurement of residual value risks is the expected residual value of the leased products at the end of the lease term. For the residual value forecasts BMW AG uses internally available data on historical empirical values, current market data and market estimates as well as forecasts by external market research institutes. The residual value estimates also include regulatory changes in the individual markets and

expectations regarding customer behavior, among others including climate policy considerations. The estimation of future proceeds from sales is subject to judgment due to the large number of assumptions to be made by the executive directors and the amount of data included in the determination. Against this background and due to the resulting significant uncertainties with regard to estimates in the context of measuring the residual values of the leased products, this matter was of particular significance in the context of our audit.

2/ As part of our audit we obtained an understanding of the development of the residual values of leased products, the underlying residual value risks as well as the business processes for the identification, management, monitoring and measurement of residual value risks, among other things by inquiries and inspection of documents related to the internal calculation methods. Furthermore, we evaluated the appropriateness and effectiveness of the internal controls, particularly regarding the determination of expected residual values. This included the evaluation of the propriety of the relevant IT-systems as well as the implemented interfaces therein by our IT-specialists. In addition, we evaluated the appropriateness of the forecasting methods, the model assumptions as well as the parameters used for the measurement of the residual values based on the validations carried out by BMW AG. For this purpose, we inquired with BMW AG's experts responsible for the management and monitoring of residual value risks and inspected the internal analysis on residual value developments and residual value forecasts as well as the validation results. We examined the mathematical correctness of the forecast values using the key calculation steps.

Based on our audit procedures, we were able to satisfy ourselves that the methods and processes for determining the expected residual values of leased products underlying the valuation are appropriate and the assumptions and parameters included in the forecast model for the residual value are appropriate as a whole.

3/ The Company's disclosures on the applied "Accounting policies, assumptions, judgments and estimations" are contained in the notes to the financial statements under "Accounting policies" and "Notes to the balance sheet".

2/ Valuation of provisions for statutory and non-statutory warranty obligations and product guarantees

1/ Provisions for statutory and non-statutory warranty obligations as well as product guarantees are included in the annual financial statements of BMW AG as a material component in other provisions. The statutory and non-statutory warranty obligations and product guarantees amounted to € 3,508 million as at 31 December 2025. BMW AG is responsible for the legally required warranty and product guarantees in the respective sales market. In order to estimate the liabilities arising from statutory and non-statutory warranty obligations as well as product guarantees for vehicles sold, information on the type and volume of damages arising and on remedial measures is recorded and analyzed at vehicle model level. The expected amount of obligations is extrapolated from costs of the past and recognized as a provision in corresponding amount. For specific or anticipated individual circumstances, for example recalls for vehicles sold, additional provisions are recognized.

The determination of provisions is associated with unavoidable estimation uncertainties and is subject to a high risk of change, depending on factors such as notification of detected defects as well as claims made by vehicle owners. Against this background, this matter was of particular significance during our audit.

2/ In order to assess the appropriateness of the valuation method used for the determination of the provisions for statutory and non-statutory warranty obligations as well as product guarantees including the assumptions and parameters, we primarily obtained an understanding of the process for determining the assumptions and parameters through discussions with the responsible employees of BMW AG. We also evaluated the appropriateness as well as effectiveness of controls for determining the assumptions and parameters. With the involvement of our IT-specialists, we checked the IT-systems used regarding their compliance. We compared the expenses for claims and technical actions with actual costs incurred in order to draw conclusions on the forecast accuracy. Based on a targeted sample of vehicle models, the mathematical correctness of the valuation model used was examined. We examined and evaluated the assumptions used by BMW AG concerning the extent to which the past

values were representative of the expected susceptibility of damage, the expected value of damage per vehicle (comprising parts and labor input) as well as the expected assertion of claims from statutory and non-statutory warranties.

In our view, the method for the valuation of provisions for statutory and non-statutory warranty obligations as well as product guarantees is overall appropriate. Taking into consideration the information available, we believe that, overall, the measurement parameters and assumptions used by the executive directors are appropriate.

3/ The Company's disclosures on the applied "Accounting policies, assumptions, judgments and estimations" are contained in the notes to the financial statements under "Accounting policies" and "Notes to the balance sheet".

Other Information

The executive directors are responsible for the other information. The other information comprises the following non-audited parts of the management report:

- the non-financial statement to comply with §§ 289b to 289e HGB and with §§ 315b to 315c HGB included in section „SUSTAINABILITY STATEMENT“ of the management report
- the section „APPROPRIATENESS AND EFFECTIVENESS OF THE INTERNAL CONTROL SYSTEM AND THE RISK MANAGEMENT SYSTEM“ of the management report

The other information comprises further

- the statement on corporate governance pursuant to § 289f HGB and § 315d HGB
- all remaining parts of the publication "Annual report of BMW AG" – excluding cross-references to external information – with the exception of the audited annual financial statements, the audited management report and our auditor's report

Our audit opinions on the annual financial statements and on the management report do not cover the other information, and consequently we do not express an audit opinion or any other form of assurance conclusion thereon.

In connection with our audit, our responsibility is to read the other information mentioned above and, in so doing, to consider whether the other information

- is materially inconsistent with the annual financial statements, with the management report disclosures audited in terms of content or with our knowledge obtained in the audit, or
- otherwise appears to be materially misstated.

Responsibilities of the Executive Directors and the Supervisory Board for the Annual Financial Statements and the Management Report

The executive directors are responsible for the preparation of the annual financial statements that comply, in all material respects, with the requirements of German commercial law, and that the annual financial statements give a true and fair view of the assets, liabilities, financial position and financial performance of the Company in compliance with German Legally Required Accounting Principles. In addition, the executive directors are responsible for such internal control as they, in accordance with German Legally Required Accounting Principles, have determined necessary to enable the preparation of annual financial statements that are free from material misstatement, whether due to fraud (i.e., fraudulent financial reporting and misappropriation of assets) or error.

In preparing the annual financial statements, the executive directors are responsible for assessing the Company's ability to continue as a going concern. They also have the responsibility for disclosing, as applicable, matters related to going concern. In addition, they are responsible for financial reporting based on the going concern basis of accounting, provided no actual or legal circumstances conflict therewith.

Furthermore, the executive directors are responsible for the preparation of the management report that as a whole provides an appropriate view of the Company's position and is, in all material respects, consistent with the annual financial statements, complies with German legal requirements, and appropriately presents the opportunities and risks of future development. In addition, the executive directors are responsible for such arrangements and measures (systems) as they have considered necessary to enable the preparation of a management report that is in accordance with the applicable German legal requirements, and to be able to provide sufficient appropriate evidence for the assertions in the management report.

The supervisory board is responsible for overseeing the Company's financial reporting process for the preparation of the annual financial statements and of the management report.

Auditor's Responsibilities for the Audit of the Annual Financial Statements and of the Management Report

Our objectives are to obtain reasonable assurance about whether the annual financial statements as a whole are free from material misstatement, whether due to fraud or error, and whether the management report as a whole provides an appropriate view of the Company's position and, in all material respects, is consistent with the annual financial statements and the knowledge obtained in the audit, complies with the German legal requirements and appropriately presents the opportunities and risks of future development, as well as to issue an auditor's report that includes our audit opinions on the annual financial statements and on the management report.

Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with § 317 HGB and the EU Audit Regulation and in compliance with German Generally Accepted Standards for Financial Statement Audits promulgated by the Institut der Wirtschaftsprüfer (IDW) will always detect a material misstatement. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these annual financial statements and this management report.

We exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the annual financial statements and of the management report, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our audit opinions. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal controls.
- Obtain an understanding of internal control relevant to the audit of the annual financial statements and of arrangements and measures (systems) relevant to the audit of the management report in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an audit opinion on the effectiveness of the internal control of the Company and these arrangements and measures (systems), respectively.
- Evaluate the appropriateness of accounting policies used by the executive directors and the reasonableness of estimates made by the executive directors and related disclosures.

- Conclude on the appropriateness of the executive directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in the auditor's report to the related disclosures in the annual financial statements and in the management report or, if such disclosures are inadequate, to modify our respective audit opinions. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to be able to continue as a going concern.
- Evaluate the overall presentation, structure and content of the annual financial statements, including the disclosures, and whether the annual financial statements present the underlying transactions and events in a manner that the annual financial statements give a true and fair view of the assets, liabilities, financial position and financial performance of the Company in compliance with German Legally Required Accounting Principles.
- Evaluate the consistency of the management report with the annual financial statements, its conformity with German law, and the view of the Company's position it provides.

- Perform audit procedures on the prospective information presented by the executive directors in the management report. On the basis of sufficient appropriate audit evidence we evaluate, in particular, the significant assumptions used by the executive directors as a basis for the prospective information, and evaluate the proper derivation of the prospective information from these assumptions. We do not express a separate audit opinion on the prospective information and on the assumptions used as a basis. There is a substantial unavoidable risk that future events will differ materially from the prospective information.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with the relevant independence requirements, and communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the annual financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter.

OTHER LEGAL AND REGULATORY REQUIREMENTS

Report on the Assurance on the Electronic Rendering of the Annual Financial Statements and the Management Report Prepared for Publication Purposes in Accordance with § 317 Abs. 3a HGB

Assurance Opinion

We have performed assurance work in accordance with § 317 Abs. 3a HGB to obtain reasonable assurance as to whether the rendering of the annual financial statements and the management report (hereinafter the "ESEF documents") contained in the electronic file BMW_AG_JA_ESEF-2025-12-31-0-de.zip and prepared for publication purposes complies in all material respects with the requirements of § 328 Abs. 1 HGB for the electronic reporting format ("ESEF format"). In accordance with German legal requirements, this assurance work extends only to the conversion of the information contained in the annual financial statements and the management report into the ESEF format and therefore relates neither to the information contained within these renderings nor to any other information contained in the electronic file identified above.

In our opinion, the rendering of the annual financial statements and the management report contained in the electronic file identified above and prepared for publication purposes complies in all material respects with the requirements of § 328 Abs. 1 HGB for the electronic reporting format. Beyond this assurance opinion and our audit opinion on the accompanying annual financial statements and the accompanying management report for the financial year from 1 January to 31 December 2025 contained in the "Report on the Audit of the Annual Financial Statements and on the Management Report" above, we do not express any assurance opinion on the information contained within these renderings or on the other information contained in the electronic file identified above.

Basis for the Assurance Opinion

We conducted our assurance work on the rendering of the annual financial statements and the management report contained in the electronic file identified above in accordance with § 317 Abs. 3a HGB and the IDW Assurance Standard: Assurance Work on the Electronic Rendering of Financial Statements and Management Reports, Prepared for Publication Purposes in Accordance with § 317 Abs. 3a HGB (IDW AsS 410 (06.2022)) and the International Standard on Assurance Engagements 3000 (Revised). Our responsibility in accordance therewith is further described in the "Auditor's Responsibilities for the Assurance Work on the ESEF Documents" section. Our audit firm applies the IDW Standard on Quality Management: Requirements for Quality Management in the Audit Firm (IDW QMS 1 (09.2022)).

Responsibilities of the Executive Directors and the Supervisory Board for the ESEF Documents

The executive directors of the Company are responsible for the preparation of the ESEF documents including the electronic rendering of the annual financial statements and the management report in accordance with § 328 Abs. 1 Satz 4 Nr. [number] 1 HGB.

In addition, the executive directors of the Company are responsible for such internal control as they have considered necessary to enable the preparation of ESEF documents that are free from material non-compliance with the requirements of § 328 Abs. 1 HGB for the electronic reporting format, whether due to fraud or error.

The supervisory board is responsible for overseeing the process for preparing the ESEF-documents as part of the financial reporting process.

Auditor's Responsibilities for the Assurance Work on the ESEF Documents

Our objective is to obtain reasonable assurance about whether the ESEF documents are free from material non-compliance with the requirements of § 328 Abs. 1 HGB, whether due to fraud or error. We exercise professional judgment and maintain professional skepticism throughout the assurance work. We also:

- Identify and assess the risks of material non-compliance with the requirements of § 328 Abs. 1 HGB, whether due to fraud or error, design and perform assurance procedures responsive to those risks, and obtain assurance evidence that is sufficient and appropriate to provide a basis for our assurance opinion.
- Obtain an understanding of internal control relevant to the assurance work on the ESEF documents in order to design assurance procedures that are appropriate in the circumstances, but not for the purpose of expressing an assurance opinion on the effectiveness of these controls.
- Evaluate the technical validity of the ESEF documents, i.e., whether the electronic file containing the ESEF documents meets the requirements of the Delegated Regulation (EU) 2019/815 in the version in force at the date of the annual financial statements on the technical specification for this electronic file.
- Evaluate whether the ESEF documents provide an XHTML rendering with content equivalent to the audited annual financial statements and to the audited management report.

Further Information pursuant to Article 10 of the EU Audit Regulation

We were elected as auditor by the annual general meeting on 14 May 2025. We were engaged by the supervisory board on 9 July 2025. We have been the auditor of the Bayerische Motoren Werke Aktiengesellschaft, Munich, without interruption since the financial year 2019.

We declare that the audit opinions expressed in this auditor's report are consistent with the additional report to the audit committee pursuant to Article 11 of the EU Audit Regulation (long-form audit report).

REFERENCE TO AN OTHER MATTER – USE OF THE AUDITOR'S REPORT

Our auditor's report must always be read together with the audited annual financial statements and the audited management report as well as the assured ESEF documents. The annual financial statements and the management report converted to the ESEF format – including the versions to be filed in the company register – are merely electronic renderings of the audited annual financial statements and the audited management report and do not take their place. In particular, the "Report on the Assurance on the Electronic Rendering of the Annual Financial Statements and the Management Report Prepared for Publication Purposes in Accordance with § 317 Abs. 3a HGB" and our assurance opinion contained therein are to be used solely together with the assured ESEF documents made available in electronic form.

GERMAN PUBLIC AUDITOR RESPONSIBLE FOR THE ENGAGEMENT

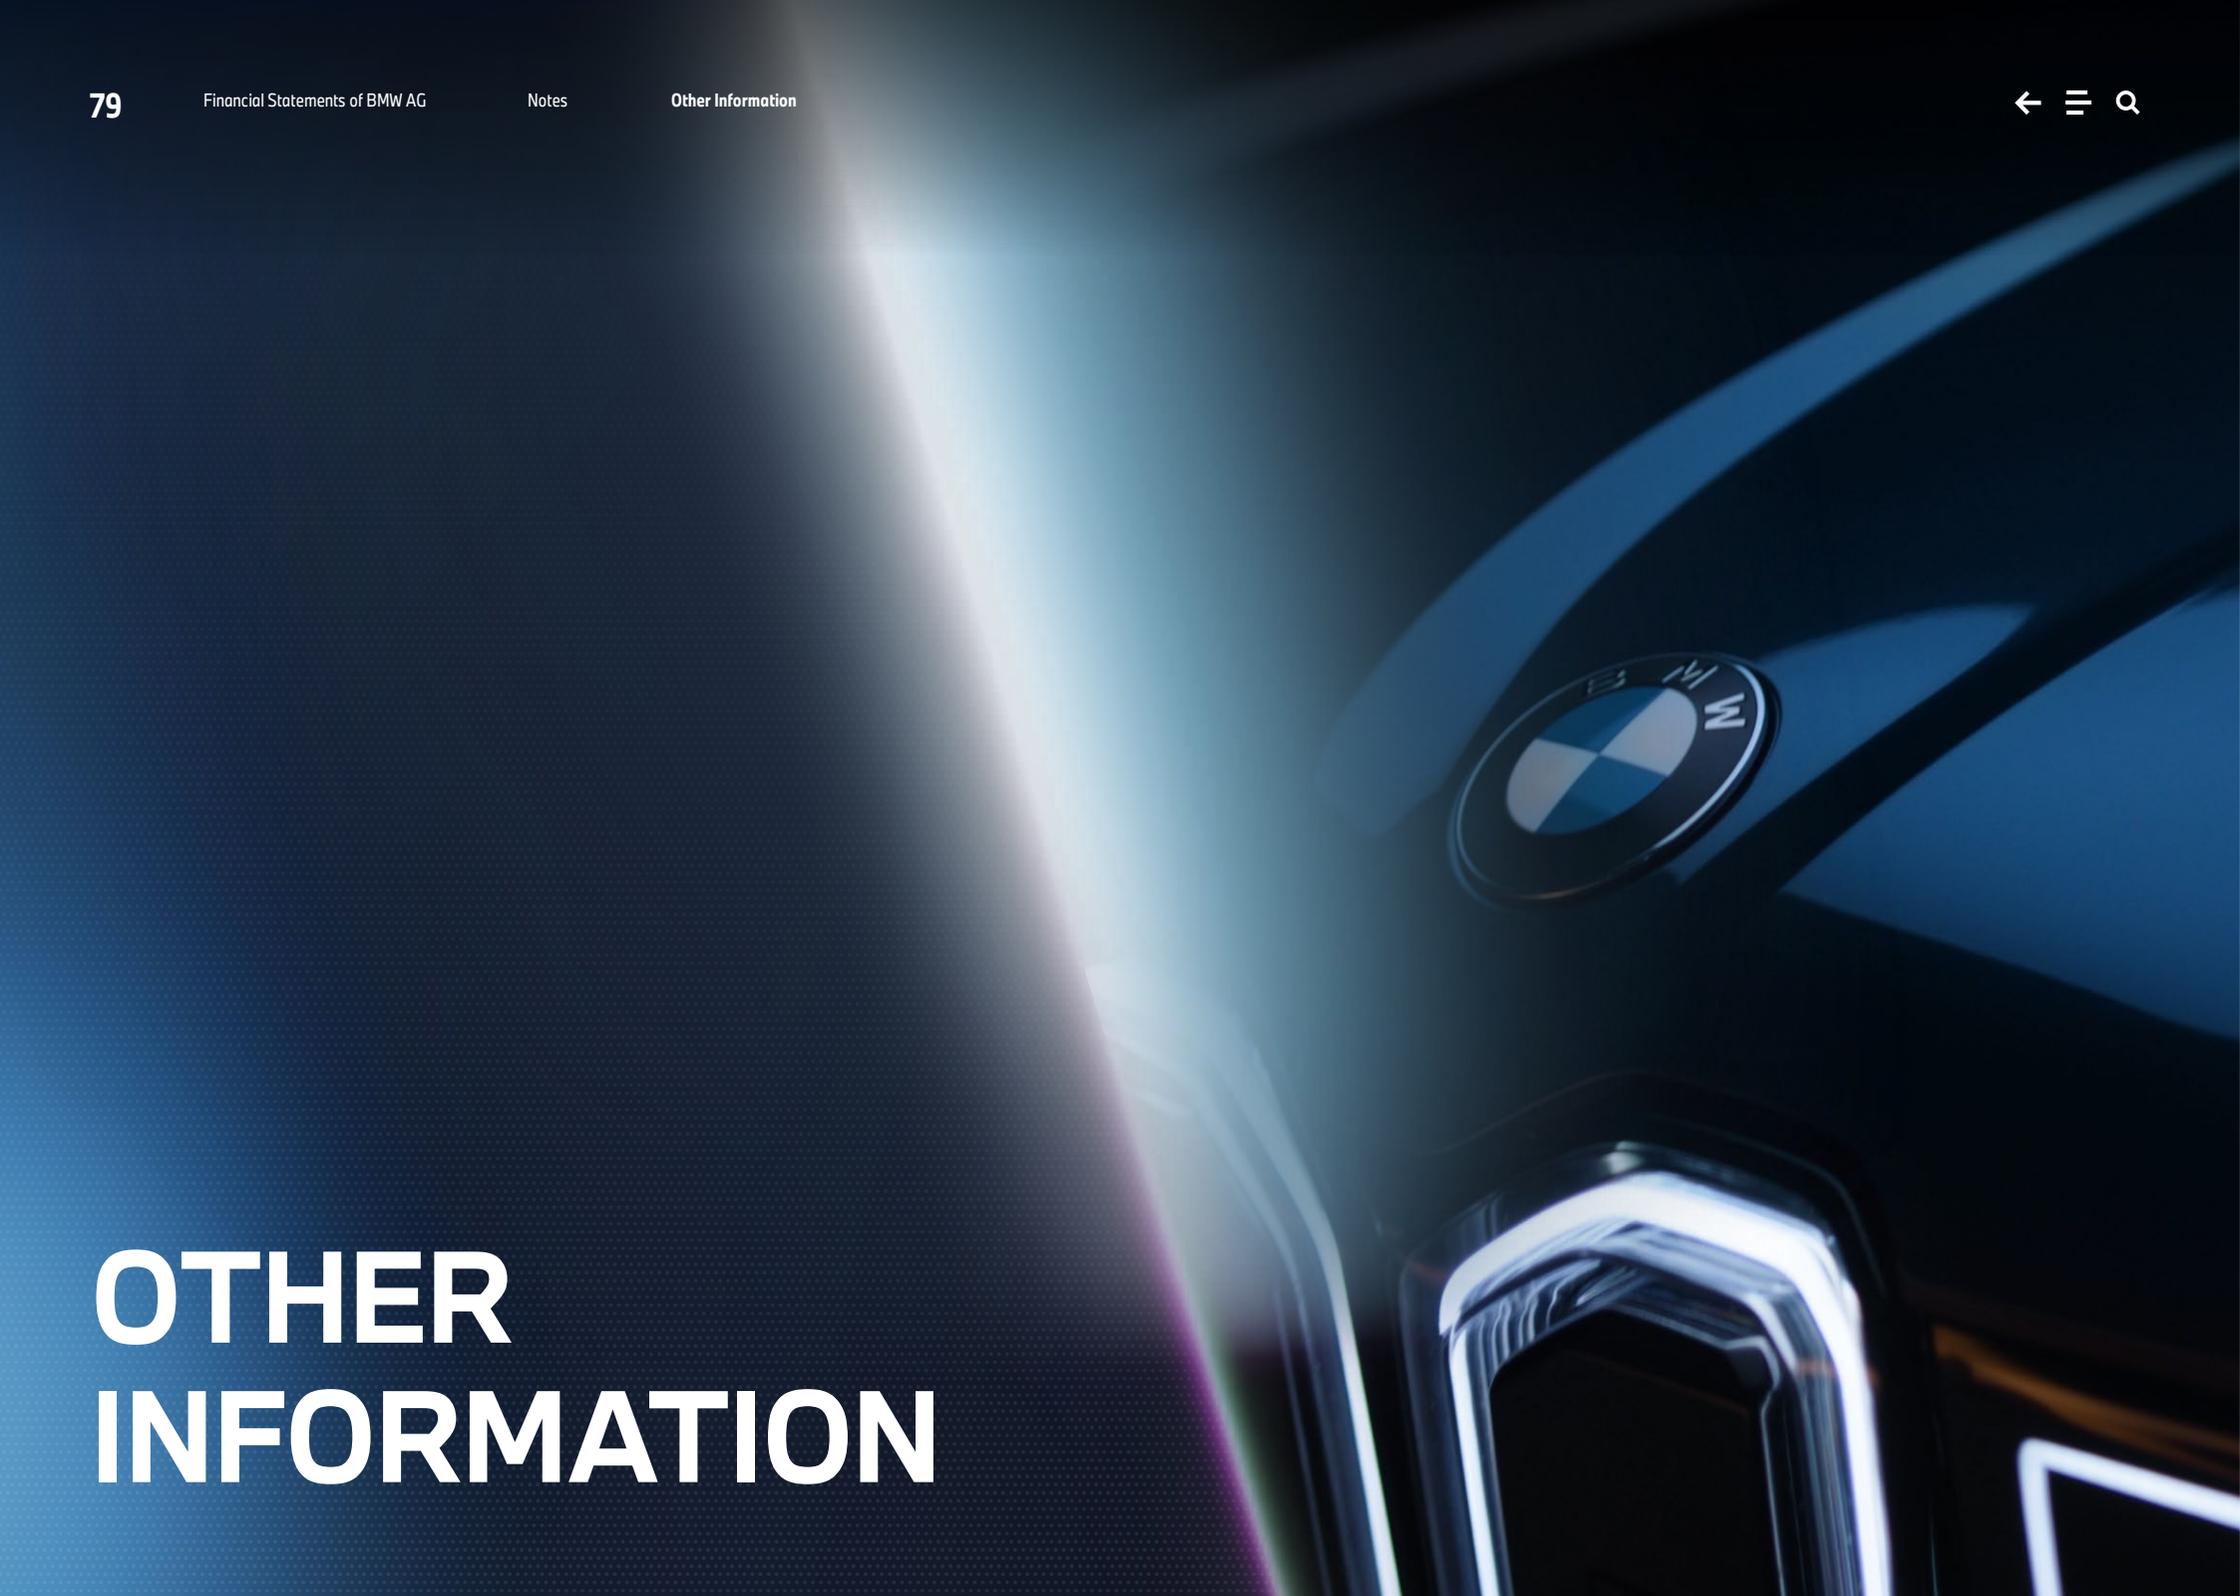

The German Public Auditor responsible for the engagement is Michael Popp.

Munich, 10 March 2026

¹ Including supplies of series parts to BMW Brilliance Automotive Ltd., Shenyang.

² Adjusted from 2019 onwards due to changes in the internal management system (see BMW Group Annual Report 2019, Group Management Report) – with the exception of employee groups such as trainees and interns.

³ The value includes subscribed capital and nominal value of treasury shares.

⁴ Proposed by the Board of Management. The distribution is based on the number of ordinary and preferred shares entitled to receive dividend as at the balance sheet date.
